

TW: This is bad! Good evening, everyone, and welcome to the final act of tonight's...*festivities*. I am so honored to be able to put an end to this shitshow, and sadly, I'm not talking about putting down the feral mutt known as "Steph Infection." You know, going into this season, I didn't expect this top four to be the top four. Besides myself, we have the man that made Moxie Valor want to quit live, the man that tries so hard at everything for...no reason, and the "man" that makes Chris-Chan look normal. All of these factors describe our resident crackhead: Whorechata Grande. Words cannot describe how happy I am that Whorechata Grande is with us this season. Whorechata's place in the top four proves that, yes, affirmative action is ruining good meritocracies across the Discord drag scene! Whorechata Grande is such a hard worker that her manager at Panera pays her in green cards instead of cold hard cash. Anyways, enough about the Make-A-Wish children in the top four, let's move on to my track record twinnie Anthyy! You know, I admire you so much for making all of your looks up to this point! It must take so much...*perseverance* in order to continue to have mugs so busted they make Wren Wyvern look like Mugler!

In order for us to move forward, it's important for us to look back at our past queens that are no longer with us. We had Bellaron, the filler queen for all seasons...including this one! We had Lectro, the personification of the "LET ME IN" meme. We had Yuka...! We had Wren, Blondie, Fleur, and Sharris having the mid-off of the century. And we had Kami, Morgs, and Sue, who all share the important trait of somehow being more disappointing than the shitshow known as MDRvTW! Speaking of, you know it's bad when fucking KALA and JORDS are the frontrunners. And now, to the lovely Greantee. Hey, boo! I'm glad you finally got out of rehab! Now the only HIGH you'll be is high risk of making Wren Wyvern implode! Oh wait, Fleur already made that happen! You know, Grean, many people call S6 the "Greantee Meet and Greet." However, that's not really true! In your case, it was moreso a "Greantee Gets ATTACKED and BULLIED by EVIL TRANS PEOPLE for 14 WEEKS (GONE WRONG) (GONE JIMBLED) (NOW WITH MORE TRANSPHOBIA)." And now we have the host with the "most," and "lovable" "lady" of the evening, BeBe Zahara Benet's biggest stan, Micro! Micro, thank you so much for having me back! It's such an honor being in the presence of such a strong, confident, powerful Rachel Dolezal impersonator! WAIT, FUCK, I FORGOT THIS WASN'T FDR- (shifts index cards coquettishly) I meant a strong, confident, powerful Candace Owens impersonator! And just like Miss Owens, we both know how much you hate these faggots on your stage right now! And, honestly, I don't blame you! If I were you, I'd make up a lie saying that someone's dog died in order to stall having to interact with them again...*oh wait*. But enough about Steph's passing, let's get back to you, mama! You know, it's amazing seeing you still kicking after all these years! I hoped that having Blondie back would finally make you end it all, but that's okay, because it finally made Sharris do just that!

I realize that some people may be offended by the abundance of suicide jokes I've made this evening. But I really haven't. After two back to back seasons of this shit, I really would rather be dead than be a part of this hemorrhaged abortion of an ORG. You know it's bad when I'd rather get constantly pinged by Chick N' Soupe for 4 months... Thank you all for staying through this shitshow! And no, insurance won't be able to cover any mental damage you've received from my dumpster fire of a set. Ta ta for now!
