

Cookie Management

What is a cookie?

A cookie is a small file stored on your device during your browsing session.

It helps analyze how the site is used and improves your experience.

Cookies used on this site

- 1 Strictly necessary cookies (site functionality).
- 2 Analytical cookies (Google Analytics, Matomo...) to measure audience.
- 3 Marketing cookies (if applicable) to optimize our campaigns.

How to manage your cookies?

You can accept or refuse cookies:

- Via the cookie banner displayed on your first visit.
- By changing your preferences in your browser settings:
