Workshop Description:

Teacher produced screencasts have the power to personalize your classroom since students can actually see and hear their teacher via video. Learn how to use any brand tablet or smartphone to essentially record your hands and voice while demonstrating concepts. These videos are perfect for students to watch before, during or after class. They're also perfect for parent education too! Specific examples and demonstrations will be provided from a “flipped” middle school teacher and adjunct professor who rarely delivers lectures standing in front of students, and instead circulates among them while they take ownership of their learning.

Presentation Outline:

1. Introductions
2. Begin Recording using [ScreenFlow](#)
([Subscribe](#) to my blog [RobZtraining.com](#) to be notified when this recording is posted!)

3. Creating Narrated Video Screencasts (of computer screen activity)
 - a. Rob's Preferred tools- Snagit (Win) or ScreenFlow (Mac)
4. Explain "Mission to Mars" LEGO Robotics Event (STEM activity)
 - a. [Mission Map](#)
 - b. [Preparation Document](#)
5. Required Tools:
 - a. Any smartphone or tablet
 - b. Google Drive app (for [iOS](#) or [Android](#))
6. Stands and Tripod Solutions
 - a. [Locker Shelf](#) (down shooting only) (\$12)
 - b. [Boomerang Stand](#) (down shooting only) (\$69)
 - c. Most Versatile: [Justand V2](#) (\$99)
 - d. Other Upright Options:
 - i. [Anker Tablet Stand](#) (\$10)
 - ii. [iShot Pro Bracket Mount for tablets](#) (\$40)
 - iii. [ShoulderPod S1](#) (\$35)
 - iv. [Microphone](#)
7. **Recording** Your Videos
 - a. Demonstrate using standard "camera" app
 - b. (Optional) Advantages of using other recording apps ([MoviePro](#))
8. **Uploading** Your Videos
 - a. Google Drive app (for [iOS](#) or [Android](#))
9. **Sharing** Your Videos
 - a. Edmodo
 - b. Google Doc ([see example](#))
 - c. Teacher website, blog, Aspen, etc.
10. Questions?

Thanks for attending today!
