PROFESSIONAL SUMMARY

Computer Science graduate and Full Stack Software Developer with over 6 years of experience developing, testing, troubleshooting, and maintaining software applications for clients across various industries. Experienced in identifying bugs, diagnosing technical issues, evaluating software behavior under different conditions, and delivering reliable solutions. Possess strong analytical thinking, problem-solving abilities, and attention to detail. Adept at investigating issues, reproducing bugs, documenting findings, and ensuring software quality through systematic testing and evaluation. Quick to learn new technologies and comfortable working independently in fast-paced environments.

PROFESSIONAL EXPERIENCE

Freelance Full Stack Software Developer (2019 – Present)

- Designed and developed websites, web applications, and software solutions for domestic and international clients.
- Performed application testing and debugging throughout the development lifecycle.
- Identified and resolved software defects, performance bottlenecks, and compatibility issues.
- Conducted troubleshooting and root-cause analysis to ensure system reliability and stability.
- Collaborated with clients to understand requirements and deliver high-quality technical solutions.
- Worked with databases, APIs, frontend frameworks, and backend technologies to build scalable applications.

Software Quality Testing & System Evaluation (2023 – Present)

- Evaluated software applications for functionality, usability, stability, and overall quality.
- Performed extensive testing to identify bugs, unexpected behavior, and edge-case failures.
- Tested applications under varying conditions to assess consistency and reliability.
- Reproduced reported issues and verified fixes to ensure software quality standards.
- Documented findings and provided recommendations for issue resolution and performance improvement.
- Applied analytical thinking and structured testing approaches to evaluate software behavior.

Social Media Manager & Content Creator (2024 – Present)

- Managed content planning, publishing, and audience engagement across digital platforms like Youtube and Instagram.
 - Developed Video Editing skills using all major editing softwares for posting content and also worked as Freelancer Video Editor and took standalone projects for various clients
 - Utilized analytics and performance data to optimize content strategies and improve engagement.
-

TECHNICAL SKILLS

- Software Testing & Quality Assurance
 - Full Stack Development
 - Debugging & Troubleshooting
 - Root Cause Analysis
 - Bug Identification & Reproduction
 - System Evaluation
 - Quality Control
 - Web Application Development
 - Database Management
 - API Integration
 - Critical Thinking
 - Analytical Reasoning
 - Problem Solving
-

TECHNICAL & BEHAVIORAL COMPETENCIES

- Strong analytical and investigative mindset
 - Excellent troubleshooting and debugging skills
 - Detail-oriented approach to testing and quality evaluation
 - Ability to identify edge cases and unexpected system behavior
 - Strong problem-solving and logical reasoning abilities
 - Effective written documentation and reporting skills
 - Adaptable and quick learner
 - Excellent time management and organizational skills
 - Ability to work independently and meet deadlines
-

ADDITIONAL INFORMATION

- Over 6 years of hands-on experience working with software systems and digital technologies.
- Experience collaborating with international clients in remote environments.
- Passionate about software quality, problem-solving, and system evaluation.
- Comfortable learning new tools, platforms, and testing methodologies quickly.
