

Web Analytics App Developer Application

Thank you for your interest in joining Morning Sign Out! Please download the following application and email it to executivestaff@morningsignout.com and kevinpjiang@berkeley.edu with your resume in Microsoft Word Document or PDF format

As part of the MSO Technology Team, you will contribute to the development of web analytics tools and other software programs that automate company tasks.

General prerequisites:

- Knowledge of web development languages (HTML, CSS, JavaScript)
- Familiarity with using RESTful API HTTP methods for data extraction
- Familiarity with mobile-friendly, responsive website design
- Good communications skills
- Able to collaborate with Android and iOS developers

Preferred, but not required:

- Experience with web application frameworks (i.e. Django, node.js, etc.)
- Experience with Git and WordPress
- Experience with website UI design

Name:

Email:

Which university do you attend?

Year in school:

1. What other time commitments do you anticipate having in the next year? Include school (number of units, difficulty of classes), jobs, and other activities or responsibilities you may have.

2. What programming experience do you have? Have you ever worked on web development or app development on platforms such as iOS or Android? Please provide concrete examples.
