

Zidoo UI Customization - Simplified Version

Zidoo UI customization guide is an interesting small function for those who want to make its own Zidoo player unique. All Zidoo models can install this UI.

1. Preparation

1.1 Make sure **Z1000PRO** and **UHD3000** firmware versions are v6.3.2 or above.

1.2 **Z9X** and **Z10PRO** should install ZIDOO_UI_1619DR.apk, press the HOME button on the remote control in the homepage, select "ZIUICancer > ALWAYS" as the picture shown below.

ZIDOO_UI_1619DR.APK download:

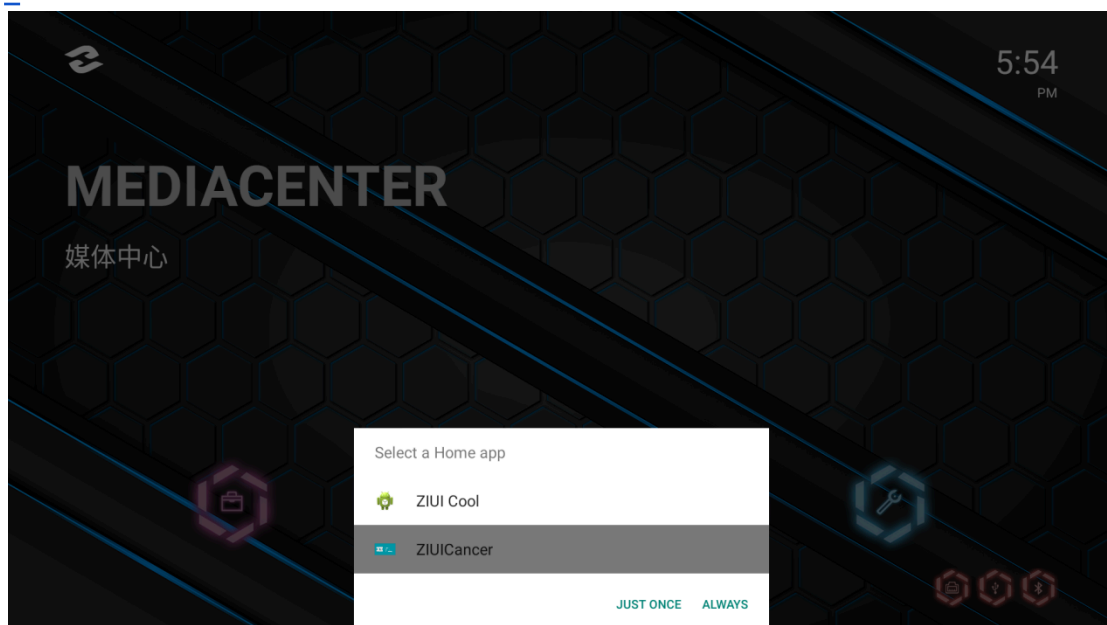

<https://mega.nz/file/NJ5QhCTI#Koj4CWySIhAKHDUiwIxyIPdVnhmfZuJK-4-W4RA9OMQ>

1.3 Make sure **UHD2000**, **Z1000**, **X20PRO** and **X20** firmware versions are v2.3.32 or above.

1.4 **Z10**, **Z9S**, **X10**, **Z10**, **Z9S** and **Z8** should install ZIDOO_ZIUI_1296_1295.apk, press the HOME button on the remote control in the homepage, select "ZIUICancer > ALWAYS" as the picture shown below.

ZIDOO_ZIUI_1296_1295.apk Download:

1.5 Download UI package, there are several UI packages including Porsche, Your Name etc.

Download here: https://mega.nz/folder/RE4h2Q7b#f3rR0KQkml21P4Q9qbt_bQ

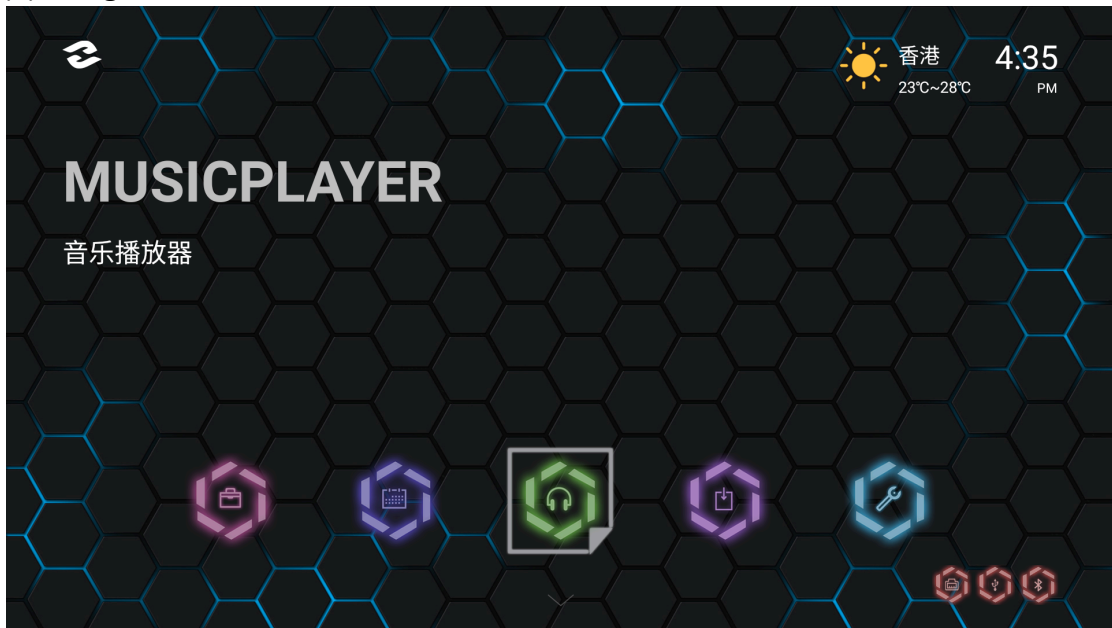

(1)Porsche:

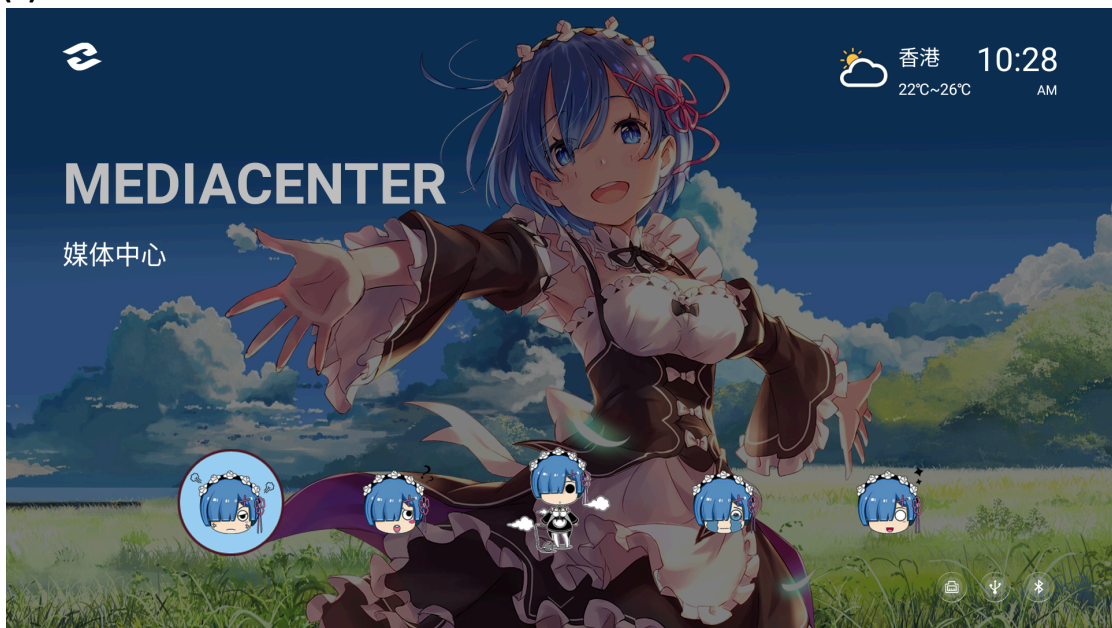

(2)Your Name:

(3)Hexagon:

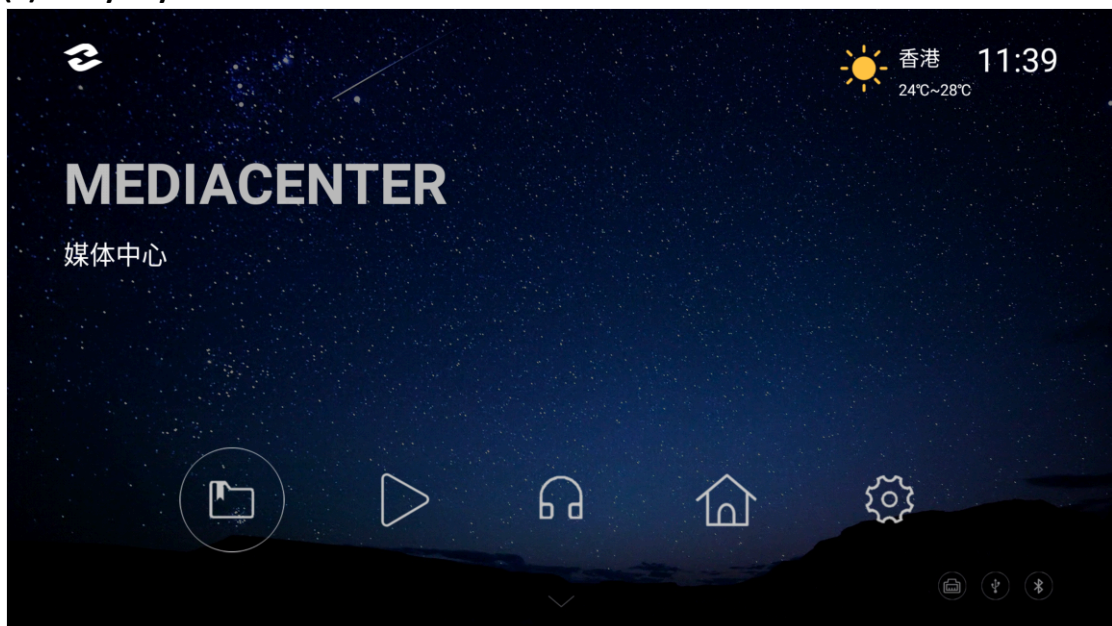

(4)Rem:

(5)Cat:

(6)Starry Sky:

(7)Tank Sky:

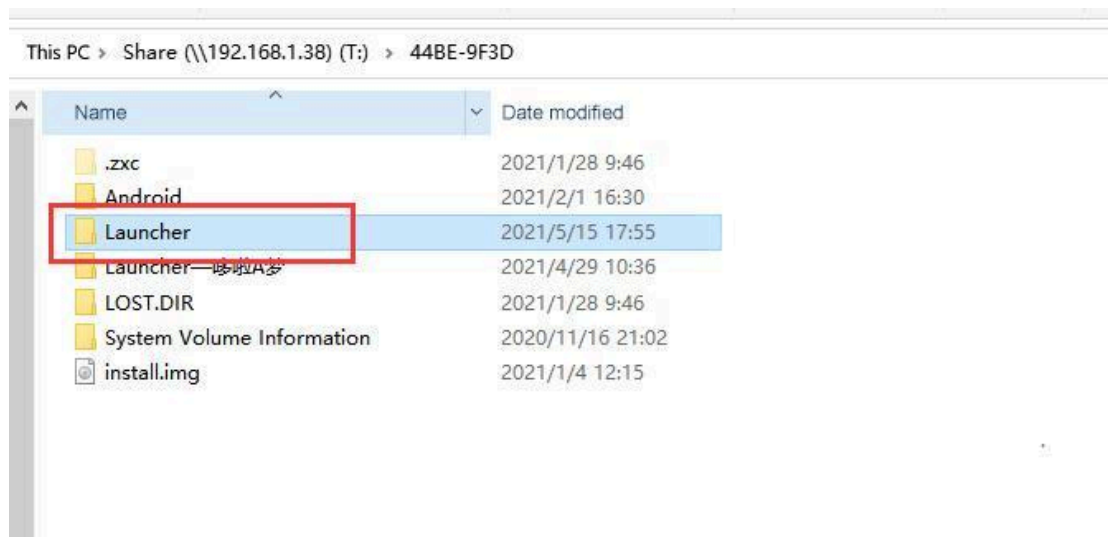

2. Replace UI

2.1 Unzip ones of the UI packages to get a Launcher folder.

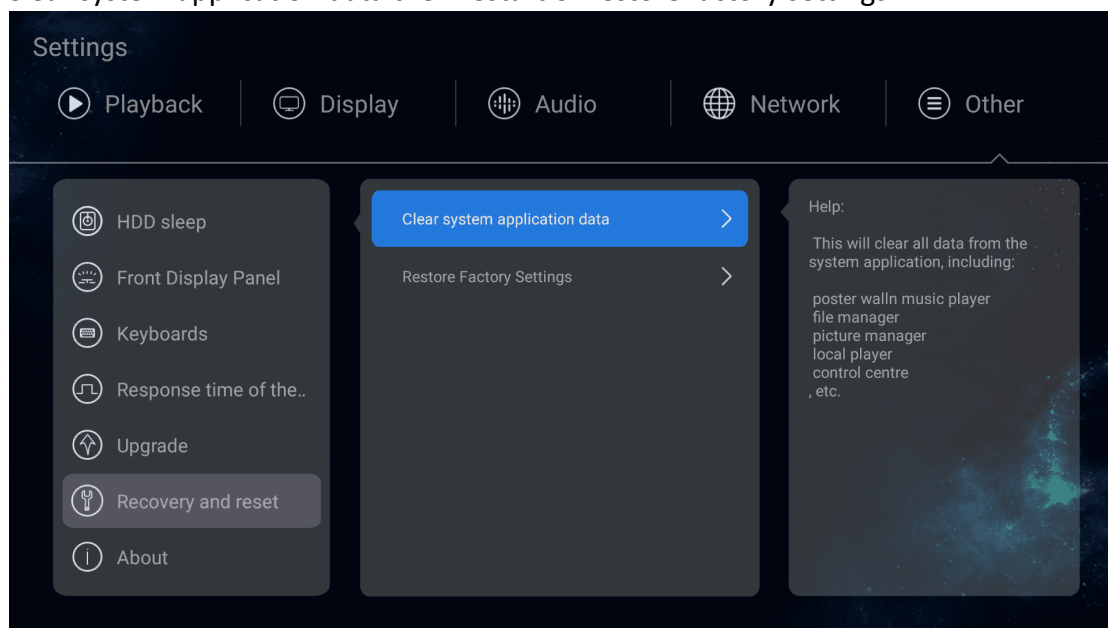

2.2 Copy whole **Launcher folder** to the **Root Directory** of USB disk, then insert the USB disk to Zidoo USB port, it will take 1-2 mins to replace automatically.

4. Recover to the Default Zidoo UI

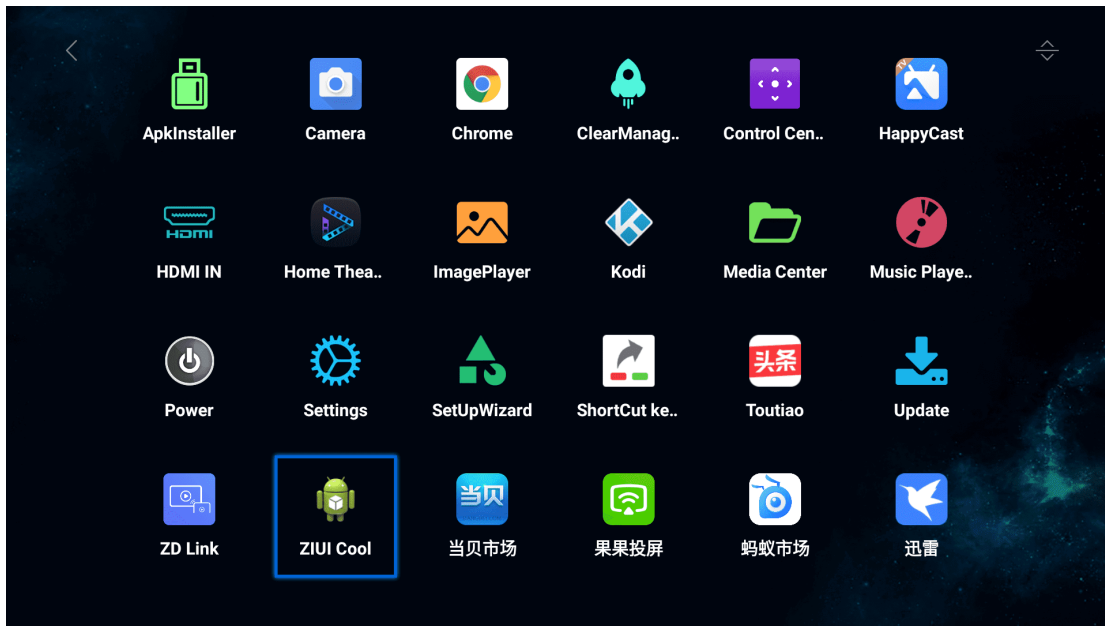

4.1 For Z1000PRO, UHD2000, Z1000, X20PRO, X20

Clear system application data then restart or restore factory settings.

4.2 For Z9X, Z10PRO, Z10, Z9S, X10, Z9S, Z8

" APPS→ZIUI Cool→ Press OK button on remote control"to switch to "ZIUICancer".

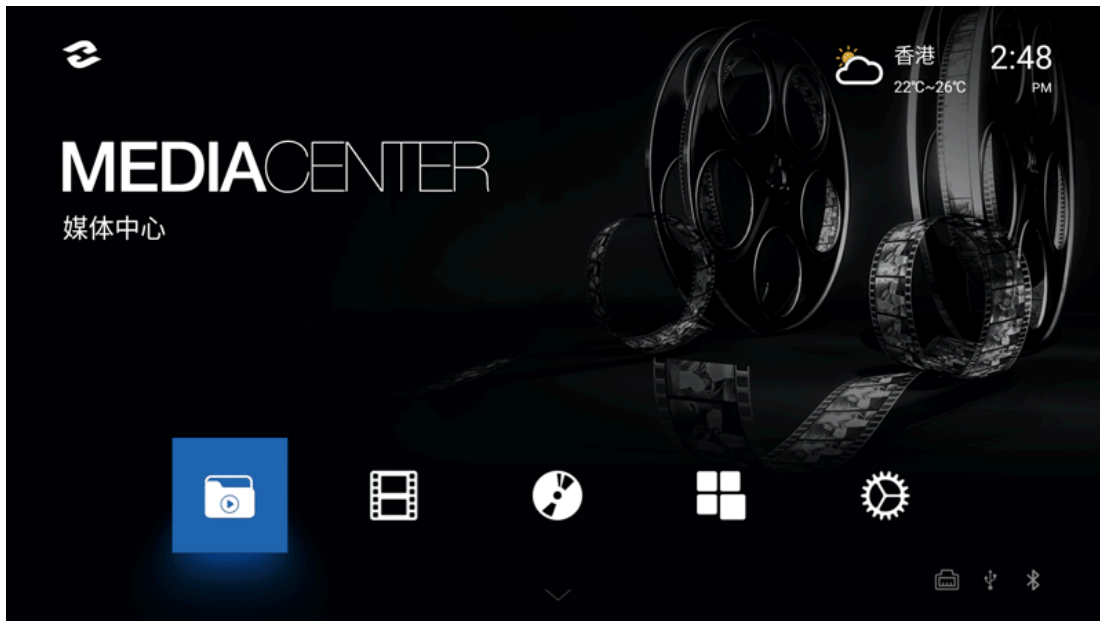

4.3 Select ZIUICancer, press the “Menu” button on the remote control to Clean Data and run ZIUICancer to go back to the Zidoo original UI.

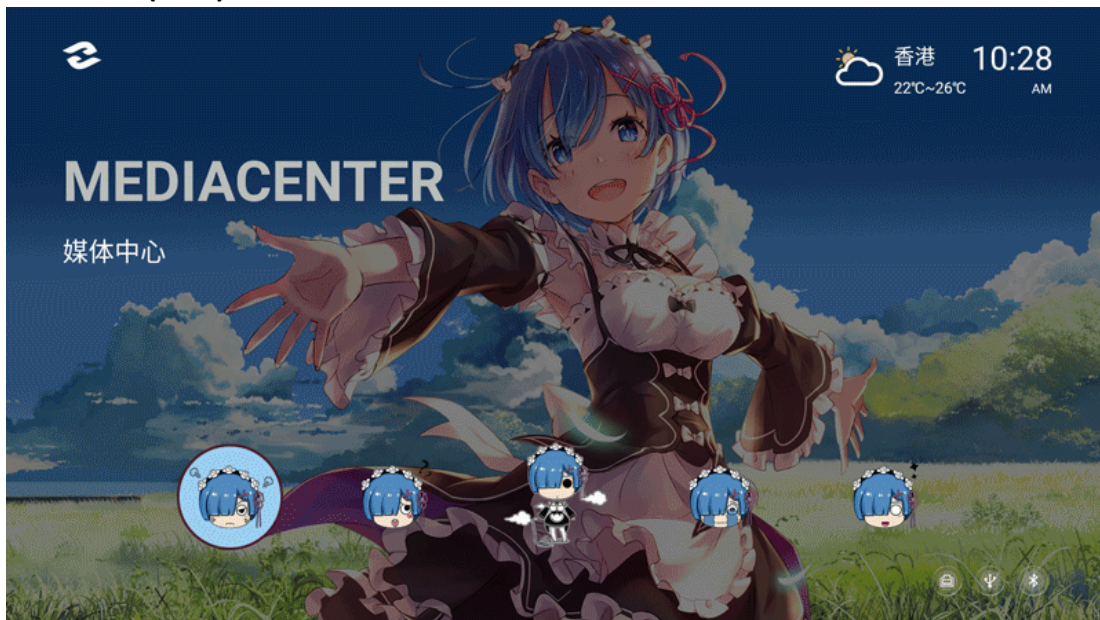

5. Demo

Original Zidoo UI:

Custom UI (Rem):

If you want to create your own UI with your own pictures, please see this guide:
