

Read Aloud Homework Assignment

Purpose: The goal of this assignment is to have students practice their Latin reading and speaking aloud. They are working on using Latin as a communication tool, and it is important for them to take as many opportunities as possible to use the language to communicate ideas.

Directions:

- Students: Read the assigned passage aloud to your parent, grandparent, or other adult friend. Speak slowly. Use gestures. Try to communicate the meaning of the story without using English, but use English if you need to. When you're done, ask your listener what they think happened in the story. Help them to understand any parts they missed.
- Parents/adults: Listen carefully and try to get the gist of what's being said. Don't worry about getting it all. Ask questions. Have fun!
