

KOZE

Founded in 2015, Koze is a production house and a content marketing agency that now counts 15 employees in Montreal. We create, produce, and distribute multiplatform content (branded and unbranded). We entertain by creating positive emotions.

Koze became known working with French-Canadian comedians on sketches, advertising, TV comedy specials and web series. Today, Koze Productions has various productions in development such as fictional TV series, documentaries, sketch shows and web series. We are a young company surrounded by many mentors from the TV industry (Just For Laughs, KOTV, ZONE3, 1R2D).

VINCENT CHABOT (Producer) is the dedicated and hard-working leader you'd give the wheels to. With a background in journalism, he started Koze with 3 partners a few years ago. Today, he is the general manager of the agency; producing web series, stand-up comedy specials for TV and major advertising campaigns. He also teaches web-series classes at ENH (the National Comedy School in Montreal).

PROJECTS

Where our portfolio lacks years of experience, it is, however, filled with the promise of delivering unexpected thrills. SRC (CBC) and Bell Media distributed both our most recent productions via their web platforms of Tou.tv and Noovo. Because of these successes, we now work with Bell Media, SRC (CBC) and new collaborators on many new series. The best is yet to come!
