Abstract (Time New Roman, 11 pt, bold)

(one blank line of single space, 10 pt)

Abstracts are written in English using Times New Roman with a font size of 10, single space, and no more than 200 words. The abstract has to contain the background statement, aims, methods, results, and conclusion of the research. The abstract should not contain any citations, references, images or equations.

(one blank line of single space, 10 pt).

Keywords: Maximum five keywords alphabetically arranged (Time New Roman, 10 pt, regular)

(one blank line of single space, 10 pt).

Writing guide: The manuscript is written in Times New Roman 11 pt, single space, A4 paper type (margin: top 2 cm, bottom 2 cm, left 2 cm and right 2 cm), justify alignment, and written in the form of a 1-column page layout. The manuscript's minimum page is 6 pages. The minimum number of references is 20, at least 80% from the last 10 years. References are cited in American Medical Association Style ¹ (Mendeley: <http://www.zotero.org/styles/american-medical-association>). The manuscript should be written in good and correct language and include aspects of the introduction, research methods, results and discussion, and conclusions with the following writing format:

1. INTRODUCTION (12 pt, bold, capital letters)

(enter, single space, 11 pt)

The author should briefly describe the research's background, significance, objectives, and benefits. The introduction is written in Times New Roman font, 11 pt, single space.

(enter, single space, 11 pt)

2. RESEARCH METHODS (12 pt, bold, capital letters)

(enter, single space, 11 pt)

The author should write down the entire material used, the tools, and the specifications. The authors should also include clear research procedures. The research method is written in Times New Roman font, 11 pt, single space.

(enter, single space, 11 pt)

3. RESULTS AND DISCUSSION (12 pt, bold, capital letters)

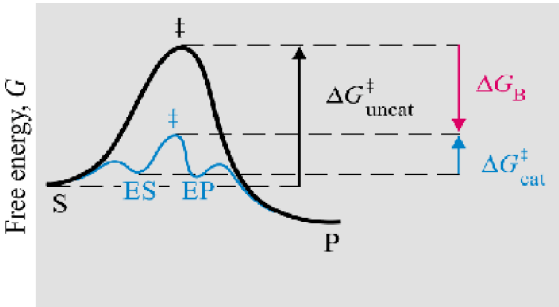

(enter, single space, 11 pt)

Results and discussion should be precise and explains all the research data and data linkage with the theory and the previous research. The discussion should explore the significance of the research results, avoiding overly broad quotes from the literature. Discussion is the most essential part of your article. Here you get a chance to sell your data. Make the discussion following the results, but do not repeat the results. The following components should be covered in the discussion: How does the research result relate to the original question or objectives outlined in the Introduction section? Does the study provide a scientific interpretation for each of the results? Are your results consistent with what other researchers have reported (what else)?

Table 1. Time New Roman, 10 pt, placed above the table; information on the table must be clear and legible
(enter, single space, 10 pt)

Xxxxxxx		Xxxxxx		
Xxxxx	Xxxxx	Xxxxx	Xxxxx	Xxxxx

(single space, 10 pt)

Figure 1. Time New Roman, 10 pt, placed below the figure; information on the figures must be clear and legible
(single space, 10 pt)

Results and discussion are written in Times New Roman font, 11 pt, single space.
(enter, single space, 11 pt)

4. CONCLUSIONS (12 pt, bold, capital letters)
(enter, single space, 11 pt)

This part is written clearly and succinctly in the form of paragraphs and must answer the purpose of the study. The conclusions should contribute to the current research on the progress of science and suggest subsequent experiments for progress from the field of study. The conclusion is written in Times New Roman font, 11 pt, single space.
(enter, single space, 11 pt)

ACKNOWLEDGMENTS (OPTIONAL)
(enter, single space, 11 pt)

Acknowledgments are addressed to parties/agencies that contribute to research activities other than the

authors.

(enter, single space, 11 pt)

CONFLICT OF INTEREST

(enter, single space, 11 pt)

State that the authors have no conflict of interest.

(enter, single space, 11 pt)

AUTHOR CONTRIBUTIONS

(enter, single space, 11 pt)

ABC: conducted the design experiment; **DE:** conducted the analysis of data; **FG:** wrote and revised the manuscript. All authors agreed to the final version of this manuscript.

(enter, single space, 11 pt)

BIBLIOGRAPHY

(enter, single space, 10 pt)

The bibliography uses Times New Roman font, 10 pt, and between literature is spaced once, with American Medical Association Style (Mendeley: <http://www.zotero.org/styles/american-medical-association>). The minimum number of references is 20, at least 80% from the last 10 years. Using the reference manager to organize references, such as Mendeley or Endnote, is highly recommended.
