

## International Students - Deferral Policy

### Registration procedure

In order to comply with visa regulations and ensure correct registration procedures are being followed, this policy is in place.

*Any international student wishing to defer their studies, must provide evidence that they have or are intending to leave the country, e.g. flight tickets purchased.*

*DBS will notify the Department of Justice and Immigration Services Delivery (ISD) that the student has elected to defer their studies and is returning home. It is the responsibility of the student to ensure that Visa permissions are in order when returning to study after the deferral period.*
