**Notes from Presentation**:

Please download these notes (if you want them)  to your machine at the end of the session

Laura Girr    girrl@rsu5.org                    Lisa Hogan  hoganl@link75.org

1. Goals for the year
        Set some goals for the year
        Every integrator has a different circumstances so as we put together a plan, choose the parts that work for you and your school

2. Your own learning
        Feed Yourself First!
        Teachers do not always know what they want or what they need so we have to keep ourselves up to speed so that we have something to offer them
        Use Twitter and Zite to set categories and follow organizations / people and all the information is "pushed to you."
        Help teachers find people to follow on Twitter

**Twitter** - Who to Follow?
        **Vicki Davis** @coolcatteacher

https://docs.google.com/spreadsheet/ccc?key=0ArUMHLv7qwc3dGFZTDROLXJ5dWF2bXdSblhHMGxwcnc

        Use email but email only the teachers who would find the information and new ideas pertinent to their classes
        Diigo use groups
        Classroom 2.0 webinars

        Teachers need help when they need help - just in time help is the so important!
        Get students involved in helping their teachers
        Be present in class for support and to confirm things are going well

3. Creating a Plan
        Teaching and Learning with Technology demo at the start of whole school meetings
        Meet with teams/departments
                Google Docs/Drive/Document Camera/PS/new technologies are good topics

Teacher tech leaders-identify them

Inservice days - try and claim some time

Offering a course that goes for a semester or for several days or weeks during the summer appeals to many teachers

Laura is offering
Once a month 1.5 hour of class … 1 hour outside of class tweeting, working on learning network, using edmodo as an example of what you can do.
thinking outside the walls of school

Lisa offered:
Summer Institute-Learning lab open w/support, cohorts-vocab-meet 1/month during fall, info literacy, digital books--recert hours

**Would love to collaborate on highlighting tech pieces from CC! swells@rsu21.net

Shawn offered:
Open Tech Wednesday's - 15 minute opening idea and then open work with assistance.

Helpful to spend time with principals on their own tech PD

4. Teacher Requests always important

5. ReVisiting the Plan every week or so to try and keep on track. things will always derail you but just having a place to pick up again, is helpful

Ways to stay in touch with other integrators:

Integrator Conference-Colby College
Actem-Integrator Group
