

# Kathleen's Sessions ISTE 2018

This is document created by @kathleen\_morris who is #NotAtISTE18

I'm writing my notes from the sessions I would like to know more about by:

- Reviewing the handouts and links provided by the presenters
- Reviewing blog posts or articles on the sessions attended by people who are at ISTE 2018
- Adding any photos shared from the sessions

Sessions I've chosen are mainly based around blogging, global projects, digital writing etc. I've chosen a mixture of keynotes, lectures, posters, research etc.

Please send a tweet to [@kathleen\\_morris](https://twitter.com/kathleen_morris) if you're able to help with adding notes to the document so I can share it with you. Thanks for your help!

# Digital Portfolios in the Classroom: Showcasing and Assessing Student Work (Workshop)

**Time:** Sunday, June 24, 12:30–3:30 pm

**Presenter:** Matt Renwick

**Session overview:** Learn about digital portfolios and how to implement these tools for assessment. Educators will explore the different types of digital portfolios, ways to integrate them into instruction and ideas for how to use this data to drive instruction while promoting student ownership and equity.

**Session Link:** [https://conference.iste.org/2018/program/search/detail\\_session.php?id=110748022](https://conference.iste.org/2018/program/search/detail_session.php?id=110748022)

**Twitter:** [@ReadByExample](#)

**Website:** <https://mattrenwick.com/>

## My Notes on Matt Renwick's Session

Matt has [listed some strengths and limits](#) for different types of digital portfolios. Having used Edublogs for the past ten years, I disagree with the limitations listed below. Particularly, the fact that tools are not readily transferable beyond K-12. To the contrary, Edublogs is used widely in higher ed and with educators. Also, being a WordPress based platform, students can easily transfer their work to their own domain. WordPress powers around one third of the whole web. The tools and skills that individuals would develop as students would set them in excellent stead for publishing online beyond their school years -- both personally and professionally.

Technology	Strengths	Limits
<b>Blog</b>  Kidblog ( <a href="http://www.kidblog.org">www.kidblog.org</a> )  Edublogs ( <a href="http://www.edublogs.org">www.edublogs.org</a> )	<ul style="list-style-type: none"><li>• A common tool used by many people around the world.</li><li>• Allows for a wide audience to view and comment on student work.</li><li>• Lends itself well to chronicling student learning, especially writing.</li></ul>	<ul style="list-style-type: none"><li>• Harder to organize and view learning artifacts; must use tags or categories.</li><li>• Involves possibly too much visibility for students, especially younger ones.</li><li>• Tools used are not readily transferrable beyond K–12.</li></ul>

Also, the visibility issue that Matt mentioned is not a problem. In fact, it's an excellent opportunity for learning. With Edublogs [My Class](#) feature, teachers can control post and comment moderation and privacy settings easily. Importantly, students are also developing the essential digital citizenship skills to learn what to publish publicly. Read more about digital citizenship and blogging [in this post](#).

The image above is from [Matt's notes](#).

## Sue Waters thoughts:

### Limitations of platform

I also disagree with the limitations in terms of Edublogs:

- Customizations of Kidblog and Edublogs are very different. Both use a customized version of WordPress however Kidblog is more customized for use by primary sector while Edublogs is customized for use in education.

Edublogs is used by all educational sectors for ePortfolios especially higher Ed. We have numerous Universities and Colleges that use [CampusPress](#) for Portfolios. CampusPress is Edublogs white label WordPress solution. <http://portfolio.newschool.edu/> is an example of a University that uses CampusPress for portfolios and here are examples of student portfolio - <http://portfolio.newschool.edu/lisaquportfolio/> and <https://portfolio.newschool.edu/taylormarie/>

- Being WordPress based means that students can easily export their content to their own domain on any standard blogging platform using Tools > Export and Tools > Import.
- You don't need to use tags or categories, however, using them makes it easier for readers and teachers to locate specific content.
- Teachers, parents and the student can control the visibility of their portfolio using Settings > Reading or My Class > Settings.

Whatever platform is chosen the student must have ability to easily transfer their content to their own domain. [Student data should always be portable.](#)

### Yearlong vs Entire school life approach digital portfolios

Matt includes a checklist for developing a yearlong plan for digital portfolios. We generally see two different approaches to ePortfolios:

- Yearlong -- individual teacher only used by the student for a year. These are more likely to be set up by a teacher on Edublogs but sometimes we see this approach on CampusPress.
  - Example -- Year 5C portfolios are block search engines and can be viewed <http://blogs.geelongcollege.vic.edu.au/middle/year-5/>
- Entire school life -- often used for all subjects and the same blog is used by student for their entire school life. More commonly it is done as a school wide approach and more likely to be setup on CampusPress.
  - Examples -- Yokohama International School Learning Hub - <http://blogs.yis.ac.jp/hs/student-blogs/> and <http://blogs.yis.ac.jp/hs/student-blogs/>

### O.W.N. – A Protocol for reflect, self-assessment, and goal setting

Matt includes a section on O.W.N. I extend this to emphasise that if blogs are used for digital portfolios, commenting should be as important or even more important than just publishing posts.

We often see most of the emphasis on documenting the learning on digital portfolios hosted on Edublogs and CampusPress by publishing posts; and very little, or no emphasis, on the importance of connected learning online and the importance of nurturing commenting. Commenting doesn't happen by chance; comments needs to be nurtured and modelled.

Commenting is an important part of the process and should be encouraged with digital portfolios. Teachers with successful blogging programs appreciate the importance of the commenting process while it is less understood with digital portfolios. [More information about commenting here.](#)

---

# Opening Keynote with David Eagleman

Time: Sunday, June 24, 5:45–7:00 pm

Presenter: David Eagleman

**Session overview:** Neuroscientist David Eagleman, Ph.D., a bestselling author, professor, speaker, inventor and adviser, uses his knowledge of the brain to not only break down how it works but show how you can change your own thinking and find more creativity in your daily life. Reviewers of his book *The Brain: The Story of You* promise that “on every page there is a revelation so fantastic as to make one gasp.” Eagleman’s TED Talk audiences agree.

- Twitter: [@DavidEagleman](https://twitter.com/DavidEagleman)
- Website: <https://www.eagleman.com>
- David Eagleman’s TED talk: [Can we create new senses for humans?](https://www.ted.com/talks/david_eagleman_can_we_create_new_senses_for_humans)

**Students need to practice creativity**

When learners are given the opportunity to **CREATE** it helps in the development of everything that comes next.

Neuroscientist, Inventor & Author

**“We need to teach COGNITIVE FLEXIBILITY rather than a particular set of skills our forefathers took on in their lives.”**

Opposite of learning by ROTE

**“The world is changing rapidly because we have 8 billion brains running around resting on what brains have already done.”**

**“...brains take in information and MASH it up and generate new versions of things.”**

**BEND and BREAK and BLEND**

...that's the BASIS OF CREATIVITY.”

**Debunking the myths**

1. We only use 10% of our brains

2. LEFT BRAIN vs RIGHT BRAIN

**“Both sides of the brain are actually extremely similar to one another.”**

**“Even during sleep, [the brain] is constantly screaming with activity.”**

**“...Kids can absorb a much BIGGER world than we were capable of when we grew up.”**

**“The Point is that now KIDS are open to 8 billion brains worth of INNOVATION...”**

## Poster Session: Write for the World With the 100-Word Challenge

**Time:** Sunday, June 24, 7:00–8:30 pm

**Session link:** [https://conference.iste.org/2018/program/search/detail\\_session.php?id=110783353](https://conference.iste.org/2018/program/search/detail_session.php?id=110783353)

**Presenter:** Tina Schmidt and Julia Skinner

**Session overview:** Do your students groan when writing is on the schedule? Do they see it as a chore with no real relevance? We'll showcase the 100-Word Challenge and bring purpose to writing by sharing it across the world. You'll turn students from reluctant writers into excited authors!

**Twitter:** [@100word](https://twitter.com/@100word) [@TheHeadsOffice](https://twitter.com/@TheHeadsOffice) [@MrsSchmidtB4](https://twitter.com/@MrsSchmidtB4)

**Website:** <https://100wc.net/>

## Resources from 100wc presentation

[https://www.instagram.com/p/BkbYKbyIWOb/?utm\\_source=ig\\_twitter\\_share&igshid=h1ze9t3xzsm0](https://www.instagram.com/p/BkbYKbyIWOb/?utm_source=ig_twitter_share&igshid=h1ze9t3xzsm0) video with Tina from @drkiacoaches - the video has no sound :(

<https://twitter.com/MrsSchmidtB4/status/1011026749889622021>

The 100 Word Challenge is all about:

- Each week a prompt is provided on the [100 Word Challenge website](#). It could be a few words, a phrase or a photo.
- Students write a 100 word story based on the prompt on their blog (or website) then submit a link to it on the 100 WC website.
- Students and teachers around the World leave comments on the post. Some classes may be paired for weekly comments.

Their poster session provides examples of students' responses to prompts and what classes have gained from participating in the challenge.

We've written a post about the [100 Word Challenge here](#) and it is included as one of the ways to [connect with other classrooms in our teacher challenge series](#).

---

## Friends Don't Let Friends Use Word Art - Teaching Creation Literacy (BYOD)

**Time:** Monday, June 25, 12:00–1:00 pm

**Presenter:** Tanya Avrith

**Session link:** [https://conference.iste.org/2018/program/search/detail\\_session.php?id=110870497](https://conference.iste.org/2018/program/search/detail_session.php?id=110870497)

**Session overview:** Our students need to understand the importance of being able to create work that others will want to consume. In this session, we will look at how design plays a crucial role in any product. We will highlight the importance of design and pedagogical principles that help us create.

**Twitter:** [@TanyaAvrith](#)

**Website:** <http://www.tanyaavrith.com/>

**Notes:** Tanya's slides can be found here

[https://docs.google.com/presentation/d/1bG1ynI7lowGIYE9ba7K562Yv7FDDHLXrHdS7-45ilIY/present?slide=id.g294204235b\\_2\\_2](https://docs.google.com/presentation/d/1bG1ynI7lowGIYE9ba7K562Yv7FDDHLXrHdS7-45ilIY/present?slide=id.g294204235b_2_2)

### Takeaways from Friends Don't Let Friends Use Word Art - Teaching Creation Literacy :

I feel like this is a topic that's so important in an age where everyone is a creator, yet it doesn't seem to be explicitly taught/discussed enough. I like the way Tanya had examples of 'good' and 'bad' design. These sorts of examples would be really useful in the classroom.

---

## An Emoji Education

**Time:** Monday, June 25, 1:00–2:00 pm

**Session link:** [https://conference.iste.org/2018/program/search/detail\\_session.php?id=110847627](https://conference.iste.org/2018/program/search/detail_session.php?id=110847627)

**Presenter:** Tony Vincent

**Session overview:** Get schooled on emojis! Emojis are cute cartoons you can type, and they are now part of the fabric of modern society. Let's explore the history of emojis, what they mean, and how they affect communication. Experience ways emojis can boost productivity, creativity and learning.

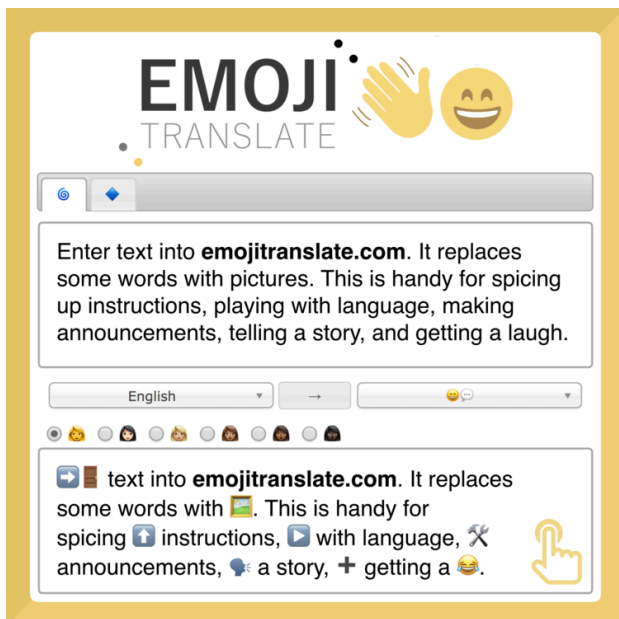

**Twitter:** [@TonyVincent](https://twitter.com/TonyVincent)

**Website resources:** <http://learninginhand.com/emoji18>

### My top 3 ideas to try

"Students can get inspiration for a story from Emoji Prompts. Go to [byrdseed.com/emoji](http://byrdseed.com/emoji) and you'll see one randomly selected emoji on the screen. Students can use this to jumpstart a creative story."

“Enter text into [emojitranslate.com](https://emojitranslate.com). It replaces some words with pictures. You can copy the “emojified” text and paste it anywhere. This is handy for spicing up instructions, playing with language, making announcements, telling a story, and getting a laugh.”

Sue Waters thoughts:

- Suggested to Sue Wyatt that Emoji prompts might be an interesting activity for the student blogging challenge.
- 

## From Analog to Digital: How to Write For an Online Audience (Interactive Lecture)

**Time:** Tuesday, June 26, 10:15–11:15 am

**Session link:** [https://conference.iste.org/2018/program/search/detail\\_session.php?id=110824512](https://conference.iste.org/2018/program/search/detail_session.php?id=110824512)

**Presenter:** Michael Hernandez

**Twitter:** [@cinehead](https://twitter.com/cinehead)

**Session overview:** Teachers often struggle to engage student passion for writing, and to make these assignments relevant to their lives. In this hands-on session we’ll use a variety of digital tools to create “writing” projects for self-reflection, creativity, and to have an impact on the world beyond the classroom.

**Session Notes:** <https://docs.google.com/document/d/1JOlbtMLIB4bEgSxs6CgtU7JYDCKrI9Ro1dY4osn4dhw/edit>

- **Session blog posts:**  
<http://www.michael-hernandez.net/hernandezarticles/from-analog-to-digital-how-to-write-for-an-online-audience>
- <http://www.michael-hernandez.net/hernandezarticles/why-how-to-integrate-media-literacy-into-your-classroom>

### Key takeaways

“In addition (to) learning how to read and consume digital texts, our students must know how to author and publish in the digital realm. What’s at stake is our students’ ability to become thoughtful citizens, and their ability to write and publish perspectives and information that will be crucial for their career success. “

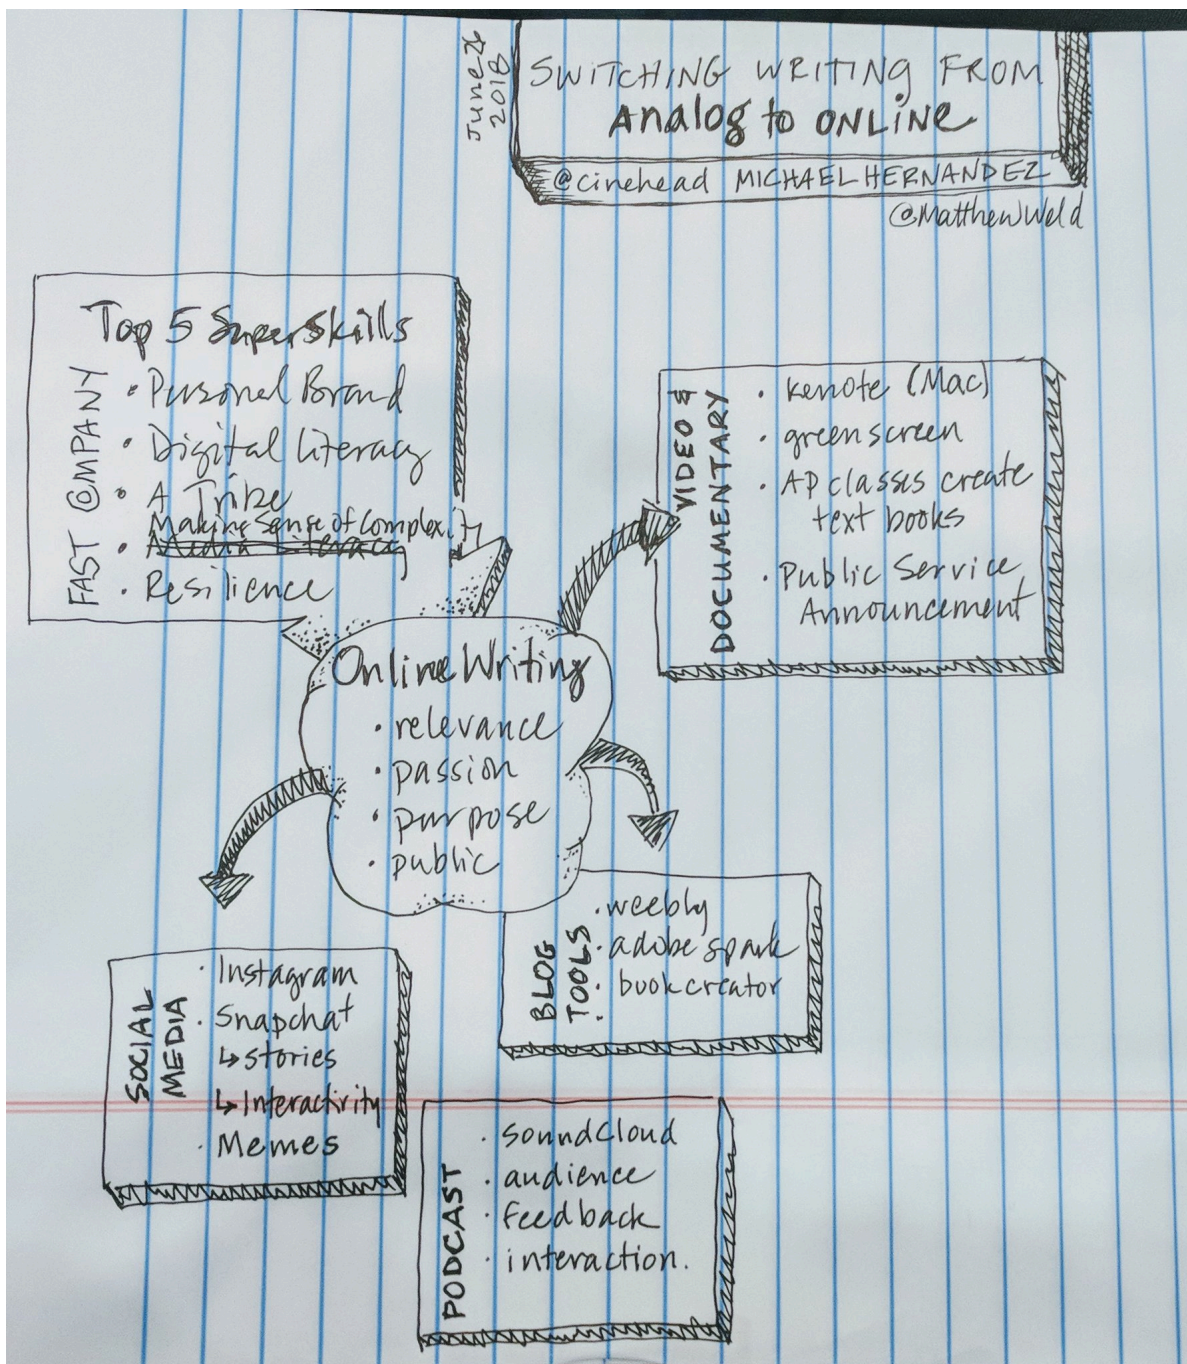

“the foundations of good writing are the same in any platform—critical thinking and analysis, structure, voice, tone, and audience.”

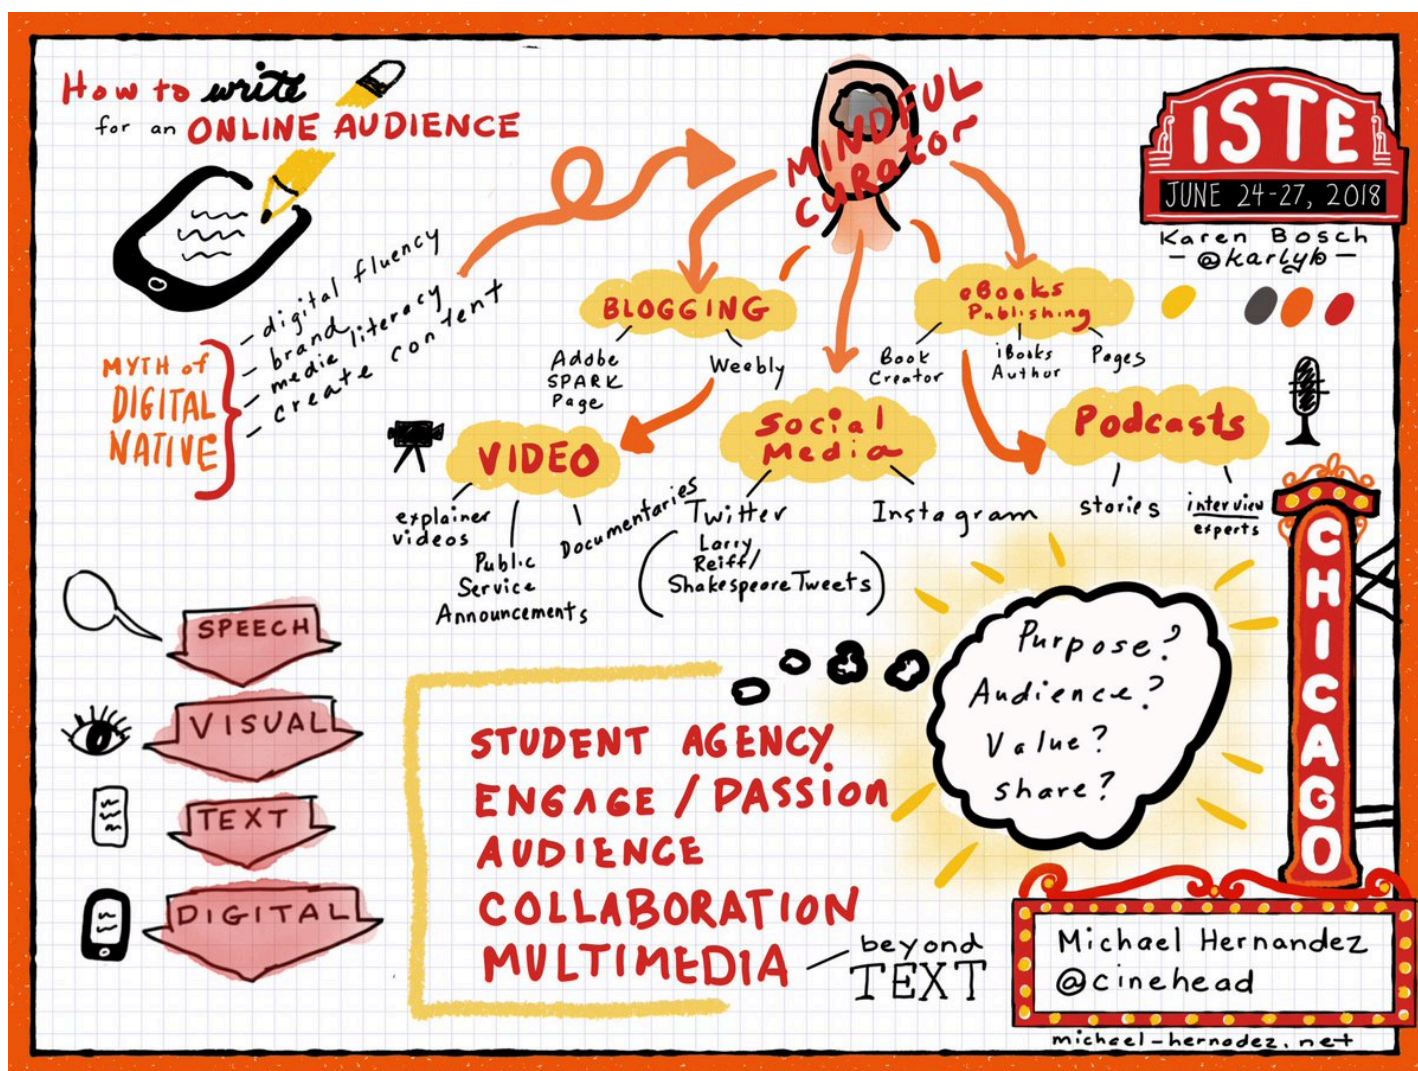

“Because blog entries are published on websites, they can easily incorporate photography, infographics, and embedded video. This is a great way to scaffold all elements of digital literacy, as student assignments become increasingly complex and build digital literacy skills over the course of the school year.”

Sue Waters feedback:

*“When we teach our students to write for digital media, it sends a message that our assignments are relevant, exciting and important.” - from*

<http://www.michael-hernandez.net/hernandezarticles/from-analog-to-digital-how-to-write-for-an-online-audience>

## Poster Session: Blogging in the Middle School Classroom

**Time:** Tuesday, June 26, 10:30 am–12:30 pm

**Session link:** [https://conference.iste.org/2018/program/search/detail\\_session.php?id=110795723](https://conference.iste.org/2018/program/search/detail_session.php?id=110795723)

**Presenter:** Melissa Eddington

**Twitter:** [@melsa777](https://twitter.com/melsa777)

**Session overview:** Learn how blogging can be incorporated into a middle school language arts class. Hear about the process for collaborating with teachers across the same district, how we prepared students for blogging, our writing and commenting guidelines, and our collaboration with others.

**Slides:**

[https://docs.google.com/presentation/d/16m9kKFp5U9NNECYcS42WcPiipDPL9xbhay9iChnpE34/edit#slide=id.g35f391192\\_04](https://docs.google.com/presentation/d/16m9kKFp5U9NNECYcS42WcPiipDPL9xbhay9iChnpE34/edit#slide=id.g35f391192_04)

# A No-Excuses Guide to Blogging

Summary of 10 blogging excuses and how to work around them  
→ [sach.ac/no-excuses-blogging](http://sach.ac/no-excuses-blogging)

**1** I don't know what to write about

- Write about what you don't know
- Write about what you're learning
- Find tons of topics
- Deal with writer's block

**4** I don't want to be wrong.

Test what you know by sharing

**7** I don't feel like I'm making progress

Be clear about your goals and possible approaches

**2** There's so much I can't write about.

Focus on what you can

**5** I feel so scattered and distracted

- Don't worry about your strategy.
- It's okay to write about different things.
- Plan, write, organize, and improve.

**8** It takes too much time to write

Make sharing part of the way you work.

**3** But I'm not an expert yet!

Share while you learn

**6** I have all these ideas but I never finish posts...

Turn your ideas into small questions, and then answer those

**9** I'm too tired to write

Figure out what you can write better when you're tired

**10** No one's going to read it anyway

- Focus on selfish benefits
- Ask for feedback
- Get other people to read your posts

2014-02-13 A No-Excuses Guide to Blogging - Summary of 10 blogging excuses and how to work around them

## Top Tools for Global Collaboration (Interactive Lecture)

Time: Tuesday, June 26, 1:15–2:15 pm

Session link: [https://conference.iste.org/2018/program/search/detail\\_session.php?id=110767336](https://conference.iste.org/2018/program/search/detail_session.php?id=110767336)

Presenters: Amy Jambor Anne Mirtschin Makisha Rogers
