Parents and Families,

The two of us wanted to put together a document full of free resources that you can use

during this time with your children. We understand that this is not an ideal situation, but together

we can ensure that our students continue to grow and learn. Please continue to have students

working on a few pages a day of the homework packet that was mailed to you. In addition to

these resources, we will be asking students to check their school email frequently, with your

help if necessary. We will also be sharing additional resources directly to their school email. You

can find your student's email address and password in the second table.

Please understand that all of our students learn in a variety of ways and work at different

paces and levels. Not every resource that will be listed on this page will be appropriate to your

child's present levels, so please take your time looking through and seeing what works for him

or her. Please do not hesitate to reach out to both of us via email to address concerns and

share ideas. We are here to help in any way we can. Thank you all for your support and

dedication to our students. Stay healthy and safe!

Best regards,

Ms. Golles & Ms. Gale
