AUGMENTED REALITY (AR) APP INSTRUCTIONS for APPLE DEVICES

Vita Jigsaw - Interactive Visual Play

Engage in relaxing, interactive puzzles

Steps:

1. Open the **Vita Jigsaw** app.
2. Choose a puzzle image.
3. Select difficulty level.
4. Use the icons at the top for hints, preview, or settings.
5. Drag and drop pieces to complete the puzzle.
6. Use hints if needed.

Sage **Advice***: Great for focus, relaxation, and cognitive engagement.*

Google Translate - Camera Translation

Use AR To Instantly Translate Text In Real Time

Steps:

1. Open the **Google Translate** app.
2. Tap **Camera.**
3. Allow camera permissions if prompted.
4. Point your camera at the printed text on your table, *In the Wake, We Rise*.
5. Select languages at the top (e.g., Spanish → English).
6. Watch the translated text appear on your screen.

Sage **Advice:** *Hold your tablet steady for best results.*

Google Arts & Culture - AR Experiences

Explore art, history, and immersive AR exhibits

Steps:

1. Open the **Google Arts & Culture** app.
2. Tap "Play" (or scroll until you see interactive activities).
3. Type "Art Coloring Book".
4. Choose a picture.
5. Tap colors to fill in sections of the artwork.

Sage Advice: *Don't worry about matching the original artwork . . . use the coloring book to explore your creativity and make the piece your own!*

Suno - Creative AI Experience

Create music using AI

Steps:

1. Open the **Suno** app or website.
2. Enter a prompt (example: "happy jazz song about friendship").
3. Tap **Create.**
4. Listen to your generated song.
5. Save or share your creation.

Sage Advice: *Be creative with your prompts. Details will improve your results!*
