Assessment system

The university uses a 100-point accumulative system for evaluating the learning outcomes of applicants.

Current control is carried out during practical/tutorials (seminar) classes and is aimed at checking the level of preparedness of an applicant to perform a specific job and is evaluated by the sum of points scored.

The final control includes the semester control, which is conducted in the form of the credit.

The maximum possible number of points for current control during the semester for the course is 60, and the minimum possible number of points is 35.

The final score for the academic discipline is calculated taking into account the points obtained during the current control over the accumulation system. The total result in points for the semester is: "60 or more points - credited," "59 or less points - not credited" and is entered in the test "Record of success" of the academic discipline.

The maximum possible number of points for current control during the semester for the course form of control which offset - 100 and the minimum possible number of points - 60.

The active work of the applicant at the practical lesson is estimated at 5 points, in general, each lesson (35 points per semester), self-study - 5 points (25 points per semester), current control (testing) - 10 points (20 points per semester), the performance and presentation of individual work is estimated at 20 points.

More detailed information on assessment is given in the technological card of the course.

Course policies

The teaching is based on the principles of academic integrity. Violations of academic integrity include: academic plagiarism, fabrication, falsification, plagiarism, deception, bribery, biased evaluation. For violation of academic integrity, students are subject to the

following academic responsibility: repeated assessment of the corresponding type of educational work.

More detailed information about competencies, learning outcomes, teaching methods, assessment forms, self-study is given in the Syllabus (working plan) of the educational course
