

Task Force Vanguard Internal Memorandum

Authorized Access: All Task Force Vanguard Personnel

Date: 2003-12-27

Subject: Task Force Vanguard Restructuring.

I, Codename Bastion, as the supervisor of Task Force Vanguard, by authorization and command of the DSCC Council, I command and order the following.

TFV has finally been meeting the high expectations and responsibilities thrust upon it by the realities of the constant threats to our way of life.

The DSCC Council is exceptionally proud of Task Force Vanguard's hard work, sacrifice, and exceptionally high destruction upon our enemies.

We wish to apologize to the Operators and Expedition Team Members of TFV.

Why we have failed our Operators and ETMs

Any of us that have spent enough time in the corporate, religious, or government worlds; if aware and vigilant, we have noticed widespread incompetence and malice.

Our pious men are sinners, our managers and politicians are obsessed with their own wealth and power, and our officers with glory and promotion.

Ambitious people flock to positions of power and responsibility, and they poison it from within.

We are surrounded by rogue officials and traitors, sleeper cell terrorists, and closet fascists, racists, and stalinists.

It is exceedingly difficult to keep these types of people outside of our organization. Even people with high IQs are easily fooled by cult leaders and serial manipulators.

We believed that we had no choice but to protect ourselves and you, by making sure that no single person knew enough to do maximum damage to the org. We also treated all individuals as high level threats or suspicious characters, unless they were personally known for years, by multiple

people.

It is exceedingly difficult to have oversight and double checking of individuals, when the regulators and internal affairs could be terrorists and psychopaths.

The Funding and Staffing Issue

It is extremely difficult to find qualified and trustworthy people, and it takes months to verify them and slowly initiate them in.

Our classified work requires lots of difficult operations to move any funding to you and at the same time we have to be accountable for every dollar, while covering up the origin of the money and the reason for the spending.

The result is our Operators and ETMs are overworked, underpaid, and burdened with responsibility.

Men and women are put in charge of issues and matters they have little or zero training or preparation for.

TFV has excessively high kill counts and most of our ETMs are not desensitized killing machines, like most elite soldiers need to be.

Too Little Too Late

Changes are being made and additional staffing is being made available.

I can't make any promises and I am well aware nothing we can do will be morally and honorably good enough.

I wish to personally name all those who have been wounded and died for our nation, fought and bled in the dark, dirty and cold, for our nation.

A list of names.

The Cabinet

TFV has been over burdened with responsibility and work. Multiple understaffed and damaged projects were rolled under the preview of TFV.

In order to reestablish a system of responsibility that will take work off our Expedition Team Members, the DSCC Council declares and activates the TFV Cabinet.

In a reflection of the flawed but promising nation we serve, there will be a Cabinet.

Each member of the Cabinet will be available as a Subject Matter Expert and Manager. They will advise and be delegated to, by the leadership structure, when such a thing is constructed.

For now they will be responsible, for good or ill, for their specialization and area of expertise.

Decisions that affect the whole org or require lots of spending or manpower, will be decided by a majority of Council Members. If a majority is present and signs on, that is enough.

Expedition Team Leader Kendra, and Expedition Team Leader Anthea have veto power over important decisions.

Council Positions

The Engineering and Material Team - [Link](#)

Led by the unreliable, non human Nathan and the reliable, naturalized Lieutenant Price

The Logistics and Procurement Team - [Link](#)

Logistics Officer Godmother

The Stealth and Infiltration Team - [Link](#)

Inspector Anthea and Inspector Kendra

The Forward Base Surveillance and Security Team

Captain Grand

The Civil Affairs and Ambassador Team

To be filled

Forensics and Investigations

Inspector Anthea

Supernatural Resources

Led by the unreliable, non human Nathan

Sub- Inspector Anthea

Physics

Dr. Amelia

Sub- Inspector Anthea

Members and Quasi Citizens

Operators - Daredevil Platoon - 30~

Marines - Alpha and Bravo Companies - 200~

“Always Faithful”

Army Air Assault - Able Company - 100~

“A soldier of Uncle Sam's Army!”

The rank and file provide security to the C Base, and the Arizona Forward Base. They also provide reinforcements to extract pinned down Expedition Teams.

The Operators are highly capable and can do any of the responsibilities or capabilities of special forces.
