- ☐ I agree to the terms and conditions of the Space Harvest Ideathon “What to Grow” application guidelines.
- ☐ I am not from the EU, nor do I reside in the EU.
- ☐ Since I am from or reside in the EU, I agree to the GDPR requirements stated in the application guideline.

*Please be sure to check the appropriate box (☒) before submitting your application form.

2. Title and summary of the proposal (approximately 200 words in English)

Please provide a summary of your proposal in approximately 200 words in English.

3. Plants

Please specify the type of plant. If possible, please also include the variety.

4. Why did you choose that plant?

Please describe in detail, using the following points as a reference, why the chosen plant (or variety) is important for human space travel and its significance.

- Benefits of cultivating these plants in space for human space exploration (nutrition, quality of life, calorie supply, etc.)
- Ease of cultivation (growth cycle, recycling, growing conditions, etc.)

5. References

Please list your references using the following as a guide. Also, please clearly indicate which parts of the text are quoted from which reference.

-Article: Author(s), “Article Title,” Journal Name, Volume, Issue, Pages, Year of Publication

-References/Books: Author(s), Title, Publisher, Publication Year, Cited Page Number.

Website: Author or organization name, “Page Title,” Website name, URL, Date accessed.

The following is an example.

-Main text

Xxxxxxxxxxxxxx ¹. Xxxxxxxxxxxxxxxxxxxxxx ².
