

**Attendees:**

1. Bhuvana
2. Bindu
3. Swedhan
4. Akhil
5. Siva
6. Muhima
7. Kurity
8. Mukunda
9. Michael
10. Romain
11. Tiisetso
- 12.

**Talk Thread:**

<https://talk.openmrs.org/t/bahmni-pat-call-29-april-2020/28211/3>

**Agenda:**

1. [Swedhan]Appointment Scheduling:
  1. Integration with Registration module to manage appointments
  2. UI enhancements on **Calendar view** ([Visual Changes to Appointment Scheduling](#) <sup>1</sup>)

Swedhan will update the relevant talk threads with further UI/UX changes. Also requesting community to post their views on the approaches proposed on the talk thread.

2. [Siva] No provision to filter data based on number of encounters in patient program context  
<https://talk.openmrs.org/t/no-provision-to-filter-data-based-on-number-of-encounters-in-patient-program-context/28216>

3. [Siva] We would like to discuss how to bring [bahmni-mart](#) to Bahmni.  
Approach to migrate the bahmni-mart to product with respect to bahmni-playbook changes. As bahmni-mart has its own playbook to install/handle mart, can product take the playbook as it is which will handle the mart installation separately.
