

- Introductions
- Status update on school/college
 - SMTD: in process of revamping student government, R&E passed for performance majors, increasing student faculty dialogue
 - LSA: finding the best resources for first and second years (calc rentals - expand program to all colleges)
 - Dental: unable to acquire parking permit (blue permit)
 - Ross: problems with undergrad recruitment process for clubs
 - ESG: transportation problems the first week, high budget project teams that require funding
 - RHA: transportation concerns, election cycles happening now
 - Nursing: improving communication skills
 - SPH: smooth transition to in-person settings, working with student orgs, more accessibility for masters programs,
 - Medical: Covid boosters, revamping mental health program, hiring new deans, student diversity council (DEI work)
 - RSG: coalition building, more social in-person events, microgrant (giving money to students), funding for student leaders in DEI area, transportation issues, get involved in local politics (affordable housing, environmental justice)
- Goals for the term
 - DEI
 - **R&E Requirements expanded to larger colleges**
 - [DEI hours requirement](#)
 - Inclusive teaching **training** (GSI pilot program, expand to faculty) focusing on prevention
 - Robust DEI training for newly elected student org members (finding presenters)
 - Memorable first exposure to inclusive student org leadership, holistic review for student applicants to ensure equal opportunity, subconscious bias workshops
 - **Mentorship program (UM students with local HS and grad with undergrad)**
 - Accessibility for [menstrual products](#)
 - Feedback on the education modules for maximum efficacy
 - **Student success workshops (first gen students, student parents)**
 - COVID
 - Review of residence halls masking policy
 - Clear protocol for a plan to moving to virtual learning (COVID emails)
 - Increase clarity on what students should do in result of cases
 - Increasing testing accessibility to maintain accurate information
 - Instructors deliver clear safety resources to students (provided by admin)
 - Accessibility for students with COVID (lectures, flexibility)
 - Resources for sickness during exams (look at MI Medicine procedures)
 - Address Transportation and Parking issues

- Mental Health - wonder about utilization of CAPS embedded counselor
