Vision for 2027

In 2027, we are becoming a devoted church — devoted to Jesus, prayer, His Word, community and communion. We are now rooting deeply into our communal faith and church structures and systems. In a culture of isolation and independence, we want to become a people fully dependent on God and deeply connected to one another through biblical community and shared life.

Goal:

Our goal is to become a church that prays together, obeys the scriptures, shares life together, and regularly gathers around the table in communion.

Devotion - rooted in Acts 2:42

We want to be a church fully devoted to Jesus:

- Devoted to prayer before worldly noise
- Devoted to Scripture before secular cultural influences
- Devoted to community before isolation
- Devoted to communion before consumerism

Our culture constantly disciples people into radical independence and individualism. But the Kingdom of God forms people into a family. We need God, and we need one another.

In 2027, we want to reject isolated Christianity and rediscover biblical community marked by humility, presence, prayer, generosity, healing, and shared meals.
