Update 2: January 29, 2026

Hello coaches, we have some more updates on the invitational for you!

Event Slate and Modifications

If there are any questions, please contact sciolytroyhs@gmail.com

A preliminary event slate and event modifications can be found [here](#). This is *preliminary*, not every event is finished but we wanted to send an update out with what we had so far. We will send another update when these are all finalized. In an attempt to provide the best practice for State and National tournaments, there will be a lab to set up with the appropriate events. In the case that a team is unable to set up the lab, please email sciolytroyhs@gmail.com and we will make accommodations with the ability to take a modified exam with a dry lab.

Along with the official events, we will be running “fun” and “trial” events. “Fun” events may be taken any day or time the week leading up to the competition typically with heavily modified structures compared to normal events, while “trial” events may be taken any time on the day of the competition with a structure very similar to normal official events.

Trial Events: Clinical epidemiology; Marine Science - Reefs

Fun Events: Anything Goes; “Modern Internet Sociology”; Scioly History

Tournament Schedule and Timeline

A timeline for the invitational, which includes all important dates and deadlines, can be found [here](#). The competition day schedule can be found [here](#). Events can only be taken during the highlighted timeblocks.
