Re: July 28, 2023, cyber hack into the Commission's electronic database in violation of the  
Computer Fraud and Abuse Act of 1986

Dear Chair, Vice Chairman, and Commissioners:

I was recently appointed counsel to the Kanye 2020 Committee by Devin White, Treasurer, and sole manager of the Committee.

I am writing to flag a July 28, 2023, cyber security breach and vulnerability in the Federal Election Commission's electronic storage or repository of campaign finance records that could wreak havoc in federal campaign reporting and records during the 2024 election cycle.

The breach illegally substituted Hassan Sheikh for Mr. White as Treasurer, and illegally added Bruce Marks as an email addressee of the Committee, in violation of the Computer Fraud and

Abuse Act of 1986. The purpose of the hack was to terminate ongoing investigations of multiple illegalities in the operation of the Kanye 2020 Committee conducted by me and Mr. White, for example, the knowing use of a foreign national, Milo Yiannopoulos, in Mr. West's 2020 presidential campaign.

The cyber breach needs to be remedied and cured as an emergency. The FEC's records should be immediately corrected to identify Devin White as Treasurer and to otherwise conform the 2020 Committee's Statement of Organization to the status quo ante before the criminal cyber hacking on July 28, 2023. It was promptly reported to the Commission's Office of General Counsel on July 28, 2023, hours after the breach had occurred. OGC has yet to respond to the emergency.

I would also urge the Commission to report the cyber security crime to the FBI or the United States Attorney for the District of Columbia prosecution. The 2020 Committee is doing the same.

Thank you in advance for your cooperation.

/s/Bruce Fein

Bruce Fein

Counsel for Kanye 2020 Committee
