### **Resolution for the Formalization of 'We Speak with One Voice' Committees and Process**

**Whereas** the world through technology and relevant partnerships is now one global community, and:

**Whereas** there are several social, environmental, economic and other concerns and challenges that threaten the tranquility and well-being of our cherished global space, and:

**Whereas** the Wesleyan Church International through its 'We Speak with One Voice' papers and presentations over the years have sought to address a variety of issues, particularly matters of sociological importance in keeping with our commitment to give attention to issues of Christian social concern, and:

**Whereas** these presentations have not always been the subject of purposeful and appropriate follow-through to ensure the Wesleyan Church's position is adopted and articulated across the length and breadth of our global community,

**Resolved** that special committees be established to give both voice and guidance to the promulgation of our "Speak with One Voice" statements and recommendations. embracing major global issues such as food security, water security, climate change, poverty and social inequality, crime and violence, artificial intelligence, mental health, global war, human rights, gender diversity, and other areas as deemed necessary,

**Be it further resolved** that this conference empowers the International Board of the Wesleyan Church to appoint such committees and outline their terms of reference.
