

I know when I'm down
That I can count on you
I know when I'm sad
That you can cheer me up
When I need a friend
You're the one I call
We've been through so much
Together, and apart
And I've told you so many things
I can barely imagine
What my life would be without you
My friend
My best friend
You can count on me too
And I will be there for you
