EL English 1:

In this course, we learn how to improve our speaking, listening, reading, and writing skills in English. We do this through reading, writing about, and talking about texts like narratives, informational texts, persuasive texts, and cultural texts. If you ever need to meet or speak with me, you are always welcome to send me an email or a message on Whatsapp and I will respond within 24 hours.

Shelter Co-Teaching EL Physical Science, EL Biology, Intervention Mathematics:

I co-teach these three subjects with other teachers. If you have questions about these, feel free to contact me through email or Whatsapp as well.

ESL Tutoring:

In this class, I am here to support you on your assignments for any class. Contact me any time if you have something specific you would like me to work on with your child.
