Sophomore Bar Design Contest QNA

Please send any further questions to jia.lin@stuysu.org !

How do I submit?

Send your submission via email to jia.lin@stuysu.org! Please have "Sophomore Bar Design Entry - <Last Name, First Name>" as your subject! You will receive a confirmation email once your entry has been seen.

What is the prompt/theme for the design?

Although there is no specific theme (up to you!), the design itself should be a landscape of some sorts (see Senior Bar and current Sophomore Bar for reference!). Please do not have anything inappropriate or otherwise not school friendly in your design!

What size should my submission be?

The actual size of your design does not matter (as we will modify it to fit the actual bar). It should be rectangular. The measurements for the actual bar is 247.5 inches (length) by 42.5 inches (height). As long as your submission is around that ratio, it is fine (so a horizontal A4 paper for traditional art entries!).

Will the designer get to paint the bar?

The designer will get to choose whether or not they want to help with the actual painting process! If they are busy/don't want to, that's also fine! The Graphics Department will do most of the painting (and volunteers if we need more people).

How will the winning design be chosen?

If there are enough submissions, we will release the top 3 (chosen by the Caucus) for voting! If there aren't enough

submissions, the Graphics Department (and Sophomore Caucus as a whole) will choose the winning entry.

*** Please note that the Sophomore Caucus reserves the right to modify the winning entry (whether to change the size/aspect ratio or to add/take out parts)**
