(April 2025 Update)

The U.S. House of Representatives is moving forward with a budget reconciliation bill that would make big cuts to health care. *Almost all of these cuts would come from Medicaid*, which covers 80 million people across the country – including children, seniors, people with disabilities.

We are fortunate that the Massachusetts Congressional delegation has stood up against Medicaid cuts to pay for tax cuts for the wealthy. While it's important to continue to support them in this fight, we can also play a role in helping to move Members of Congress representing districts in other states.

Ask your friends and family who live in key districts to call or email their Representatives TODAY!

Recently, 12 Representatives signed on to a letter to House leadership saying they cannot support a final bill that includes Medicaid cuts. They need to hear from their constituents to make sure they hold strong on supporting Medicaid.

Arizona (Rep. Ciscomani)
California (Rep. Kim & Rep. Valadao)
