Privacy Policy for Veil Spoiler Blocker

Last Updated: [Bugünün Tarihini Yaz, örn: October 26, 2023]

This privacy policy explains how Veil Spoiler Blocker ("the extension") handles data.

1. No Data Collection

The extension is designed with your privacy as a priority. It **does not collect, store, or transmit any personal data**, browsing history, or user activity.

2. Local Storage

All user settings, including your custom keyword lists, presets, and whitelisted sites, are stored locally on your computer using the browser's standard storage API. This data never leaves your device and is not accessible to the developer or any third party.

3. How the Extension Works

The extension's sole purpose is to read the content of the web pages you visit in real-time to identify and blur text or images that match your locally stored keywords. This processing happens entirely on your device. The content of the websites you visit is not saved or sent anywhere.

4. Contact

If you have any questions about this privacy policy, please contact us at paperpixelstudio@proton.me
