

Background: The client is an electrical contractor in South Africa with an electricity crisis. He offers Solar energy installations

**ESKOM WANTS YOU POOR!**

Eskom is going to keep punching you in the face...

How much profit have you lost due to Load-shedding?

How many times did you close shop/service because of Eskom?

Will you let them continue playing with your lights and your bank balance?

Will your family eat if you cannot make money because of 'lost' generator units?

You have the power to change your life

There is a light in the sky which never dies

Solar power is God's gift to you to help you defeat Eskom

No more buying electricity, no more power outages

Just POWER

Keep your business open and remain competitive and competent through all the load-shedding and drama
