

Pedro Coelho

Front-end Software Developer

Kaohsiung City, Kaohsiung City, Taiwan

+886 900 278 166 | pedrocoelhodeveloper@gmail.com | [Linkedin profile](#) | [Github](#) | [Website](#)

SUMMARY

Versatile and detail-oriented Front-end Engineer with a strong foundation in React, TypeScript, and modern JavaScript frameworks. Currently leading front-end development at MoreHarvest, a global real estate tech startup, where I build and maintain scalable web apps using Vite, Next.js, and Strapi. Previously contributed to large-scale enterprise systems at GLSoft for clients like Watsons and Samsung, and developed white-label retail solutions at Supercash. My background in UI/UX design and a past career in education enrich my approach to user-centric, maintainable code. Comfortable working in agile teams, owning features end-to-end, and setting up CI/CD pipelines for smooth deployments.

WORK EXPERIENCE

MoreHarvest

Software Engineer - Apr 2023 - present

Taipei, Taiwan
