

Here is Mittens!

a very epic guy.

he's a very posh 4 year old cat with a relatively deep voice and a kind of over exaggerated tone to it, a good example being my brother's voice acting for him (dm me and i'll send u some cause i cant put them on docs)

preferably male, probably like i'd say 15-17yr old range possibly given MY AGE-

his voice is kind of hard to do, you need to be british (every character is british) it doesn't really matter if your american but can DO a british accent, so please, if you are NOT british, DO. NOT. COME. TO. ME. i just think it'd be easier for va's to be british and not be completely confused on why their favourite depressed man is not actually british.

(this isn't cause i'm against america or anything lmao most of the va's and side characters will be from america most likely it's just easier and i feel more comfortable talking to someone from the same sorta region as me, also time zones are pretty much the same, so that'd be perfect) his voice is silly, goofy and meant to just make people laugh by how it seems he almost knows he's on a show and being smug on purpose BUT he portrays A LOT of emotions like fear, happiness, excitement, teasing, frustration, etc etc, so he has a very wide range of emotion and not JUST the smug technician genius cat. (btw he's a scientist and makes tech for a living lmao but in the pilot he covers it up and calls it "just a silly little hobby" yeah...totally mittens...totally.) i thought it'd be comedic to have a cat that has a deeper voice than the other 2 main characters COMBINED.

He doesn't get along well with Josh much, but eventually Josh starts opening up to him more later on in season 1 given that without mittens Josh would still have nothing.

i'd advise NOT to completely follow my brother's examples, he over exaggerated the lines A LOT lol, so make sure he is pretty neutral and not always mic clipping, screaming, and overall being very unprofessional lol (my bro has no experience, he just does it cause he likes mittens and wants to give ppl examples)

If I like your voice acting I will most likely keep you for future seasons if you want, and as I stated in the server, FREE OF CHARGE. REMEMBER THAT. OKAY? THAT'S YOUR SECOND WARNING (well i copy and pasted this for all of them so depends if you've seen it once, twice or thrice lol) so pls dont try and blackmail me to give you money for the lines 🙄 given you KNOW i have no money TO pay you, and as long as you don't mind getting loud and making close remarks to swearing, ya good!

no guarantees the eyes of curiosity WILL happen, voice acting is just one step closer to that sweet sweet Succulent pilot:)

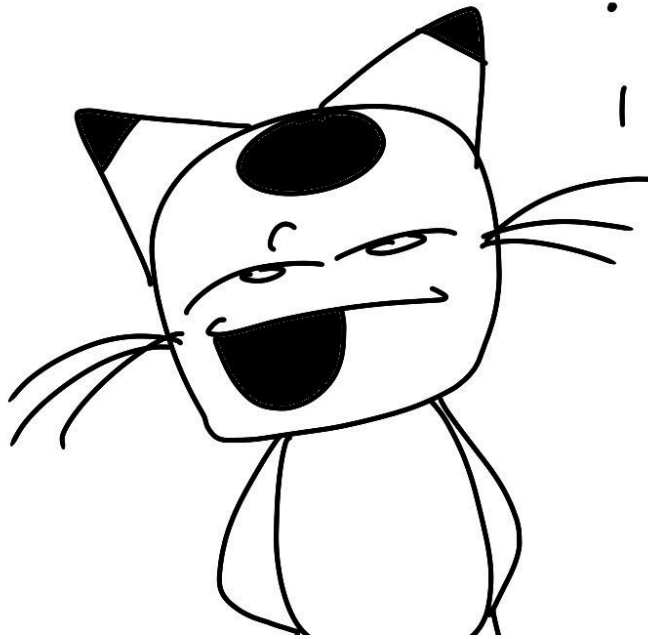

btw i'm autistic so my ideas are very epic because of my tisms! This is what happens when you get a supportive family, they get you a pc and you then get all the time in the world after being dragged out of school!!

Here's some more art of mittens, and I currently have (by the time I'd be posting this) finished all the lines for mittens in the pilot.

btw the artstyle i'm using is NOT official, it's just placeholders until i can find animators

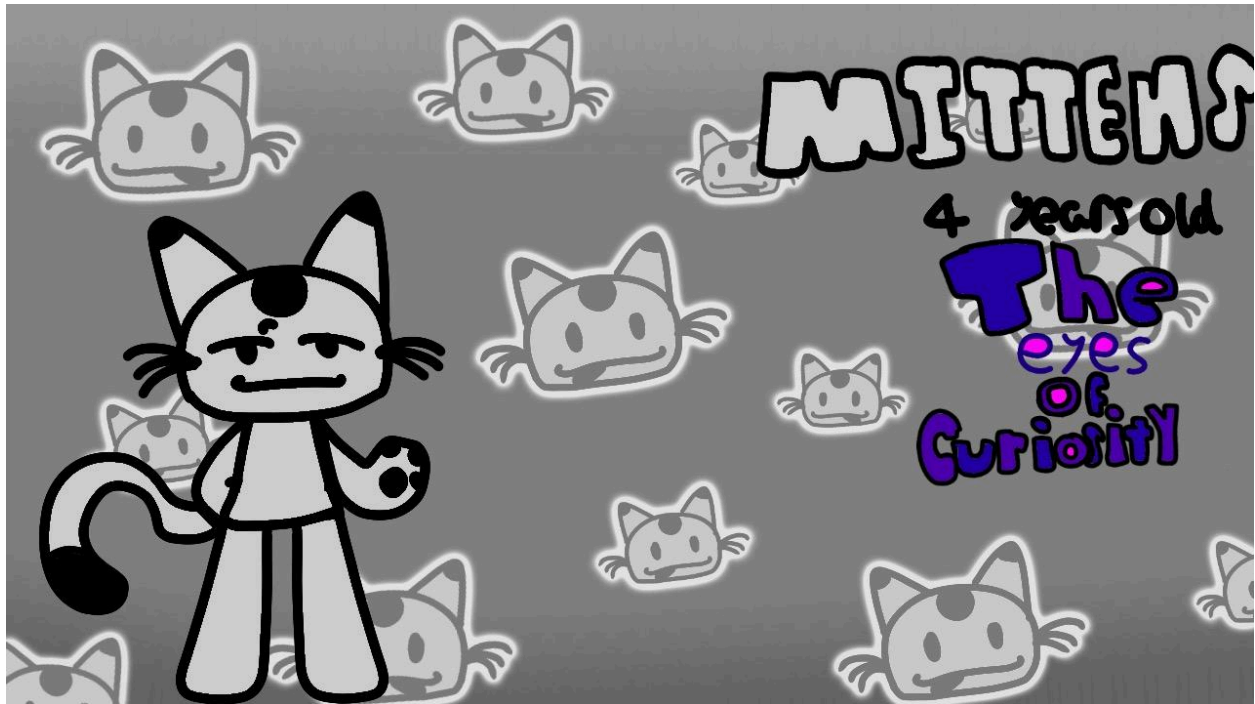

enlighten me.

i'm so
Sigma.

^ this isnt a superhero show i swear 🤔👉
