Discussion:

Human Trafficking options: The Texas Department of Public Safety came last year and showed a video. We also have health TEKS that include Human Trafficking. Kristen Cain with A-21 organizations, has a curriculum on human trafficking and digital safety. We discussed that it needs to be geared towards girls and boys, and we will need to get parents' permission.

National Wear Red Day is on February 7th. SHAC would like for the kids to donate to the heart challenge again this year. Discussed doing another fundraiser for a local BISD member.

National Child Abuse Prevention is in April. Discussed sending letters to Church's on Blue Sunday to pray for abused children. Discussed having the Sheriff's Department come and talk to each class. A counselor needs to be available, and the children need to know who they can talk to.

What's New:

UT Tyler PsyCap update: Nurse Avery Malone sent out all permission forms, and did not receive many back. She is working on calling parents and sending the forms by email. Angela Preston, PhD, RN, is coming January 30th and will go over the survey with the students.

We have a new softball and travel AED.

Department of State Health and Human Services sent a sheet of what all they can

provide. We discussed what should be added to the curriculum.
