

Garbage and Dumpster Guidelines

- Garbage and cardboard are to be taken out after the last lunch period on each shift.
- You are responsible for keeping the area around the dumpsters and outside the dock clear. These areas must be swept and clean before returning to work.
- There are to be no pallets/skids left outside along the ramp.
- Make sure the gates, to the dumpster area, are closed when you are finished.

The daily responsibility will alternate between the blue and green zone material handlers (including Saturday 3rd shift, and Sunday for 1st & 2nd).
