Policy Statement:

The adoption of a Safety & Emergency Procedures Plan Policy of duPont Manual High School ensures that students are provided a safe and secure learning environment.

Procedures:

The principal, in consultation with parents, teachers, other school staff, and local first responders, will collaboratively develop the school's emergency management plan as a way to document efforts to prevent, mitigate, prepare for, respond to, and recover from emergencies. The emergency management plan will include procedures for fire, severe weather, earthquake, and building lockdown as specified in Kentucky statutes and regulations. The plan will include, but not be limited to:

- The establishment of primary and secondary evacuation routes, which must be posted in each room by each doorway used for evacuation.
- The identifications of severe weather safe zones that have been reviewed by the fire marshal/fire chief, which must be posted in each room.
- Procedures for students to follow in an earthquake.
- Development and adherence to access control measures for each school building, which may include (but not be limited to):
 - o Controlling access to exterior doors during the day.
 - o Controlling front door access electronically or with a greeter.
 - o Controlling access to individual classrooms.
 - o Requiring visitor check-in and checkout with identification and purpose of visit provided.
 - o Display of visitor's badge on outer clothing.
 - o Practices for students to follow in case of fire that are consistent with the administrative regulations of the State Fire Marshal's Office, Department of Housing, Buildings & Construction (DHBC).
 - o Procedures for lockdown of school.

Local law enforcement shall be invited to assist in establishing lockdown procedures.

Following adoption, the Safety & Emergency Procedures Plan and diagrams of the facilities will be provided to appropriate first responders. First responders, for the purpose of this policy, include local fire personnel; local, county, and/or state police personnel; and emergency medical personnel. Due to the need to maintain student and staff safety and security, the emergency plan and diagram of the facility will not be disclosed in response to any open records requests or discussed during an Open Session of any school council meeting.

Prior to the first instructional day of school, the principal or designee will present and review all emergency procedures with all staff. Documentation, including the time and date of the review, will be

kept on file at the school with a copy sent to the district office to document completion. Documentation may include such methods as a sign-in sheet with the printed name of each staff member (all certified and classified staff), the signature of each staff member, and the date and time of the review.

A comprehensive diagram of the school showing primary and secondary evacuation routes will be posted at each school doorway prior to the first instructional day of school. Identified severe weather safe zones, which have been reviewed by the local fire marshal or fire chief, will be posted at each school doorway prior to the first instructional day of school.

Annually, the principal is responsible for working with the central office to ensure that all local first responders have a current diagram of the school that notes the primary and secondary evacuation routes, the severe weather safe zones, and notations of the exterior and front entrance access points. Completion will be reported to the school council and documentation maintained in the principal's office. (Other items to be listed on map: Assembly Area, Parent/Student Reunification Area, First Aid Station, and other potential hazards, such as gas lines and overhead power lines).

Within the first 30 instructional days of the school year and again during the month of January, the school will conduct one severe weather drill, one earthquake drill, and one building lockdown. Fire drills will be conducted in accordance with the timelines, procedures, and requirements outlined in the DHBC regulations.

Whenever possible, first responders shall be given notice of possible drills and invited to observe. The principal is responsible for ensuring the implementation of these drills and reporting completion and problems noted during the drill to the school council and to the district central office for any remedial action needed.

Possible access control methods that will be used at duPont Manual High School are outlined below:

- All exterior doors must remain locked at all times.
- All visitors must enter through the posted front entrance, exit 1. If the visitor requires use of ramps to enter the building, he/she may use exit 22 with a school personnel opening the door and escorting the visitor to the front office.
- The front entrance must remain secure with electronic access only.
- All visitors must use the buzzer and be recognized prior to gaining access to the reception area.
- The principal is responsible for ensuring that trained personnel monitor the front entrance at all times. At no time during the school day are students allowed to monitor the front entrance or the reception area

- All visitors must report to the front office, state the purpose of the visit, and wear a school-specific badge on the outermost garment during the entire visit. Upon leaving, all visitors must report back to the front office.
- The office must keep an accurate log of each visitor, the date and time of the visit, the purpose of the visit, and with whom he or she visited.
- Students coming and going to YPAS must use exit 2.

4. Develop individual student schedules.
5. When developing student schedules, consideration must be given to transcript review of graduation requirements, needs of Individual students, available subjects, class size, post-secondary preparation, program of study, and class size caps (adhering to state guidelines and the Collective Bargaining Agreement).
6. *All magnet program students must complete a pre-college curriculum. This curriculum is defined as the minimum pre-requisites for admission to a state supported university in the Commonwealth of Kentucky. When duPont Manual's master schedule is unable to meet a student's educational goals beyond their approved Magnet Pathway, students will be informed and given the opportunity to take AP and/or Dual Credit courses available through the Pathfinder School of Innovation, University of Louisville, Jefferson Community & Technical College (JCTC), or other postsecondary partners. (Exceptions to this provision can only be made if the counselor of record determines that such alternate course options are needed in order for a student to meet special magnet program or graduation requirements.)*
7. *Students may not enroll in eSchool, un-approved courses (including Dual Credit), or un-accredited programs to fulfill the pre-college curriculum. Students are unable to use online or self-enrolled courses/programs in order to complete more elective classes as credit on their transcript beyond those opportunities afforded them in their four-year graduation plan. (Exceptions to this provision can only be made if the counselor of record determines that such alternate course options are needed in order for a student to meet special magnet program or graduation requirements.)*
8. Students will be given their class schedule at registration. If the student is unable to attend registration, his or her class schedule will be provided to him or her by the first day of school. (Instructions on how to access this information will be provided.)
9. Students entering school after the initial scheduling will be assigned to classes according to items 2 and 5 above. Final approval will be given by the principal/designee.
10. Students are expected to remain enrolled in a course until its conclusion. Students will have the first ten days of the semester to request a course change. Schedule changes will be considered based on course level, graduation requirements, and to correct errors. Consideration will not be given to requests for teacher preference. *(Exceptions to this provision can only be made if the counselor of record and principal determines that such an option is needed in order for a student to meet special magnet program or graduation requirements.)*

In assigning students in accordance with the above considerations, no student shall be assigned to a class or a program solely on the basis of his or her age, color, disability, marital or parental status, national origin, race, sex, sexual orientation, political opinion or affiliation or religion, or any other legally protectable category.

SCHOOL-BASED DECISION MAKING**

School Name: duPont Manual High School
Policy Number: R16
Subject of the Policy: Technology Utilization

Policy Statement

Technology use in the twenty-first century has become a vital component of all aspects of life. For all students to be contributing citizens, they must receive an education that incorporates and provides equitable access to technology in all aspects of learning. duPont Manual High School will ensure that its technology approach is aligned with the Jefferson County Public Schools (JCPS) Digital Transformation and Everyone: 1 plan. As such, duPont Manual High School will assign an instructional device to all students in 1:1 manner to support digital instruction and content for both school and at home use (when applicable). duPont Manual will create competent digital citizens by providing integrated internet safety and digital citizenship instruction to all students.

All students at duPont Manual High School will demonstrate technology competency prior to graduation per the current *Student Progression and Promotion (SPP) Handbook*, which includes authentic demonstrations of technology competency incorporated during the defense of learning process.

Within the constraints of the budget, the Council will ensure that the technology infrastructure is modern and fully functional and that it meets the teaching, learning, and operational needs of all stakeholders. The Council will ensure that procedures are aligned with JCPS school board policies and district initiatives while ensuring consistency with state standards, technology utilization, and technology programmatic appraisal. School personnel will develop and administer needs assessments and use the resulting data to develop and implement a technology plan to continuously improve technology use and barriers, and the resulting plan will be monitored by the Council.

duPont Manual High School SCHOOL-BASED DECISION MAKING

School Name: duPont Manual High School
Policy Number: B1
Subject of the Policy: Anti-Bullying

Policy Statement:

At duPont Manual High School, we believe that all students have a right to a safe and healthy school environment. KRS 158/148 defines *bullying* as “any unwanted verbal, physical, or social behavior among students that involves a real or perceived power imbalance and is repeated or has the potential to be repeated:

1. That occurs on school premises, on school-sponsored transportation, or at a school-sponsored event; or
2. That disrupts the educational process.

“This definition shall not be interpreted to prohibit civil exchange of opinions or debate of cultural practices protected under the state or federal Constitution where the opinion expressed does not otherwise materially or substantially disrupt the education process.” duPont Manual High School has an obligation to promote mutual respect, tolerance, and acceptance. duPont Manual High School will not tolerate behavior that infringes on the safety of any student.

At duPont Manual High School, students will be educated by staff in all grade levels to help them identify and respond to the dangers of bullying. There are five types of bullying recognized in this policy, these include but are not limited to:

1. Relational bullying, sometimes referred to as “social” or “psychological” bullying. This takes the form of disrupting another student’s peer relationships through gossiping, whispering, and spreading rumors. It also includes turning your back on them, giving them the silent treatment, or leaving them out.
2. Cyberbullying, sometimes referred to as social bullying, is often indirect; students communicate negative representations of the target to third parties, often through social network sites, instant messaging, texting, chat rooms, or posting on web pages or blogs.
3. Verbal bullying, such as threatening, taunting, intimidating, insulting, sarcasm, teasing, ridiculing, making faces, rolling eyes, and other gestures.
4. Physical bullying, (such as hitting, pushing, shoving, kicking, pinching, holding a person down) includes both the person and/or their possessions (through extorting money, stealing or causing damage to possessions).
5. Sexual bullying, sometimes referred to as sexual harassment, includes unwanted sexual attention and comments, gender-demeaning remarks and jokes, using sexually offensive names, circulating pornography, touching the private parts of another student’s body, molestation, assault, and rape.

Reporting Procedures shall include the following:

- Tell a teacher or another adult at school. Teacher or adult will refer the student to the online form.
- A staff member will report immediately to the school administration when they witness or become aware of conduct that may be bullying or retaliation.
- Witness statements may be completed by other students per the Bullying Witness Statement Form.

- An Assistant Principal or designee will review and investigate the report from the student and/or reporting adult to verify acts of bullying.
- Potential illegal bullying acts will be reported to the appropriate authority.
- Student reports that are found to have been intentionally filed under false pretenses or in retaliation will be subject to disciplinary action.
- Additional resources are provided at:
<https://www.jefferson.kyschools.us/student-support/bullying>

Progressive Discipline Process

Level One Intervention: Level 1 behaviors represent minor disruptions to the classroom environment. Typically, these are not referred to an administrator until the classroom level interventions are not correcting the behavior. With Level 1 behaviors, the goal is to correct the behavior while limiting time missed from class. Repeated misbehavior requires a parent/teacher conference, a conference with the counselor and/or a conference with an administrator. Staff should use responses in a graduated fashion.

Level Two Intervention: Level 2 behaviors represent acts whose frequency or seriousness disrupt the learning environment of the school. These violations always result in the involvement of school administration. With Level 2 behaviors, the goal is to correct the behavior by stressing the seriousness of the offense while keeping the student in school. Staff should use responses in a graduated fashion.

Level Three Intervention: Level 3 behaviors represent acts against a person(s) or property which indirectly endanger the health of safety or others in the school. These offenses may result in the short term removal of the student from the school environment because of the severe nature of the offense. Response options may include combinations of interventions, resolutions, and discipline. Staff should use responses in the graduated fashion. Out of school suspensions should include a conference with the parent and student the morning the student returns to school at the end of the suspension.

Level Four Intervention: Level 4 behaviors represent acts against a person(s) or property which may directly or indirectly endanger the health or safety of others. These offenses always result in administrative action, possible notification of appropriate law enforcement authorities, and immediate removal of the student from school. The school will make a recommendation to the Office of Student Relations for an administrative hearing to determine next steps. In the case of Level 4 violations, response options at the school level are limited due to the seriousness of the violation and the direct or indirect endangerment to the health and safety of others.

At the conclusion of the discipline process outlined above, questions and concerns may be directed to the principal.

Subject of the Policy: Professional Development/Learning (PD/L)

Policy Statement

Highly effective Professional Development and Learning (PD/L) should be informed by student learning outcomes and overall academic performance as evidenced by state assessments; staff reflections based on analysis of the school Comprehensive School Survey (CSS) and IMPACT Kentucky Survey results; the JCS six systems and three pillars; the Racial Equity Policy; Equity Scorecard data; State and National Professional Learning Standards*; and a myriad of evaluative tools, including observational data from the Danielson Framework (Professional Growth and Effectiveness System [PGES]).

Additionally, the ILT and the principal shall ensure that the appropriate objectives and strategies are included in the School PD Plan as part of the Comprehensive School Improvement Plan (CSIP) to provide for the differentiated needs of teachers for the coming school year.

Approval of the CSIP will also constitute approval of the school PD/L offerings for the upcoming year. Consideration of professional learning that focuses on racial equity/implicit bias, culture and climate, the Journey to Success Skills, and deeper learning strategies should be included in the planning process. PD/L that is not included in the CSIP requires principal approval and must address a need that is included in the individual's evaluation and professional growth plan.

SCHOOL-BASED DECISION MAKING**

School Name: duPont Manual High School
Policy Number: B4
Subject of the Policy: Classroom Assessment

Policy Statement:

The duPont Manual High School Instructional Leadership Team (ILT) shall establish and maintain a balanced, comprehensive school assessment system that effectively uses (a) universal screeners, (b) common formative assessments, (c) district common assessments (optional), (d) summative assessments, and (e) demonstrations of learning to continuously inform teaching and improve learning for **every** student. School assessment practices shall also be consistent with the Kentucky Academic Standards (KAS).

Both teachers and students are associated with assessment practices. Teachers shall collaboratively design and use assessments to demonstrate mastery of key concepts and skills, to track and communicate student progress, and to provide students with additional learning opportunities toward mastery and proficiency. Students shall be routinely engaged in setting goals, monitoring their own progress, and using descriptive feedback to adjust their own learning. Classroom assessment criteria/standards (e.g., using rubrics, scoring guides, models, and exemplars) will be clearly written and provided to students prior to assessments to encourage students to demonstrate rigorous work that is developmentally appropriate. Particularly for demonstrations of learning, rubrics can include both content standards and process standards, such as the Standards for Mathematical Practice. Following each assessment, students should receive any rubrics/scoring guides with teacher feedback to clarify their performance toward proficiency and understand areas for future growth.

The principal and ILT shall recommend to the SBDM Council ongoing Professional Development/Learning (PD/L) to increase the assessment literacy of all instructional staff. Assessments designed by teachers should be culturally sensitive and responsive to the needs of diverse populations. School teachers shall administer district and state assessments according to the recommended assessment calendar (to be modified each year in accordance with district and state expectations). Required documentation of performance shall be based on multiple assessments of student learning as outlined in the JCPS *Student Progression and Promotion Handbook* and *Student Grading Framework*.

The SBDM Council shall be responsible for reviewing recommendations for schoolwide assessment practices and determining if the recommendations promote student learning and increase student achievement. The school will have a school-based plan to use data from assessments to provide interventions and enrichments. The SBDM Council shall provide final approval of the recommended assessment practices. The SBDM Council shall regularly review and/or update this Classroom Assessment Policy based on the emerging needs of students in the school. - Is able to achieve at high academic levels.
- Feels safe, welcome, and valued at our school.
- Receives a full, fair share of the opportunities our school has to offer.
- Knows and honors the achievements of their ethnicity, cultural identity, perspectives, and tradition.
- Knows and honors the achievements of other cultural traditions they may encounter in our community and later in life.
- Respects and understands that different life experiences lead to different perspectives.
- Allows/Encourages equal access to all programs.

We commit ourselves to annual reflection on how well we are fulfilling this commitment, including review of the following data disaggregated by gender, race, ethnicity, socioeconomic status, and disability:

- Student academic performance
- Student participation in our academic and extracurricular programs
- Student disciplinary referrals and removals (e.g., suspension, ISAP)
- Family involvement in school activities
- Feedback from students, parents, staff, and community leaders on their perception of our performance in this area
- Efforts to establish a diverse staff that is reflective of the student population
- Attendance

Based on what we learn from that reflection, we will develop and implement the plans needed to address any area of growth to fulfill the commitment made above. We will combine this work with our School Improvement Plan (SIP) process and the School Racial Equity Plan and ensure that our staff members are caring and culturally responsive. Additionally, the school's Comprehensive School Survey results will be used to gauge actual student perception and facilitate our decision making.

School Name: duPont Manual High School
Policy Number: B6
Subject of the Policy: Homework

Policy Statement

Homework can help students to build responsibility, self-discipline, and life-long learning practices. Therefore, duPont Manual High School/YPAS supports staff assignment of relevant, challenging, and meaningful assignments that reinforce learning objectives. These assignments may include unfinished assignments, independent work, and/or creative assignments, all of which allow students to practice and review classroom lessons, preview upcoming topics, and/or extend learning. Teachers will use homework as a means to evaluate learning and will provide students with written or verbal feedback (feedback may be, but is not limited to, a grade, comments on individual student work, global feedback, and teacher-guided self-assessment) that will help them to improve academically. The content and skills on homework assignments should not be assessed for Mastery until they have been reviewed as part of the learning process towards the mastery; this includes providing feedback. Teachers will work with students and families to ensure that all students have equitable access and opportunities to complete the homework and provide support for students to overcome barriers.

Teachers will refrain from assigning any homework during the major breaks: Fall Break, Winter Break, and Spring Break. During short breaks (Labor Day, Martin Luther King, Jr. etc.), or extended weekends, (Parent Teacher Conferences, Derby, etc.) teachers will not assign additional homework on top of their typical homework amount. Long-term projects should be considered in calculating the homework workload.

For Parents and Students: Actual homework completion time will vary depending on student habits, accommodations, differing needs, and/or class load. Additional time may be necessary to complete requirements for AP and magnet specific classes.

duPont Manual High School SCHOOL-BASED DECISION MAKING

School Name: duPont Manual High School
Policy Number: B10
Subject of the Policy: Protection of Instructional Time

Policy Statement

duPont Manual High School ensures that every student will be actively engaged in instructional activities throughout the school day. It is important that interruptions to the instructional process be kept to a minimum. Instructional time will be protected in the following ways:

- Announcements will occur at a specified time or on an emergency basis only.
- Classroom instruction will begin when the bell rings. Calls to the classroom will only occur in emergency situations. Transition time will be minimized in the master schedule.
- Videos and television broadcasts will be used for instructional purposes only and will align to the standards.
- The School Discipline and Classroom Management policy, as well as the School Safety Plan, will be used to develop a positive school culture and maximize instructional time.
- The principal will set the expectation that students should be engaged in learning from the moment they walk into the classroom until the moment they leave.
- Crimson Hour Days will be scheduled at least once every six weeks.

Field Trips

Many opportunities for deeper learning exist beyond the school walls. Field trips are part of the students' instructional day. Therefore, all field trips must be an extension of the curriculum taught in the classroom and aligned to the standards. Given the relationship between field trips and learning, all students shall have access and opportunities to participate in field trips. Students shall not be excluded from this opportunity to learn. If there is a concern about a student attending a field trip, a plan for the student must be developed and approved by the principal.

For field trips to be approved, the relationship between the curriculum and the field trip must be evidenced in the Request Form completed by the teacher(s). This request must be submitted following appropriate procedures and timelines. (As outlined in Jefferson County Board of Education [JCBE] policy, these procedures and timelines are reviewed each year with the staff and are in the *Faculty Handbook*.) When a parent volunteers to chaperone field trips, a background check must be completed.

Considerations for field trips:

1. No flexible activities that require students to miss instructional time, but whose specific time is not fixed by concerns outside the school (e.g. visits to museums, off-campus sites, or other events without fixed starting times) may be scheduled during the period between Spring Break and the conclusion of scheduled standardized assessments such as Advanced Placement tests and End of Course exams.
2. Teachers must submit a list of students attending field trips to the faculty no later than 3 school days before the trip takes place, unless an exception is granted by school administrators.
3. Students must be provided with make up work in accordance with the Make Up Work Policy.

4. The principal shall have final authority to approve or deny staff and students' activity requests consistent with the overall intent of this policy.
5. Ensure that all students have equitable access to attend out-of-class activities and provide support for students to overcome barriers that might preclude them from attending.

2. Student must be on schedule to graduate as determined by the schools' counseling office.
3. Student must have a GPA of 2.0 for the previous semester grades.

If the student is above KHSAA Academic Eligibility Requirements for the previous semester, the student will be allowed to practice with his/her team, but will be ineligible for competition until all SBDM Eligibility requirements are satisfied.

**duPont Manual High School
SCHOOL-BASED DECISION MAKING**

School Name: duPont Manual High School
Policy Number: M2
Subject of the Policy: Attendance

Policy Statement:

Much of the success of duPont Manual High School comes from the emphasis on daily attendance. Attendance is perhaps the most critical factor in student achievement in school. Regular attendance and punctuality are essential for college and career readiness. The following attendance policies are designed to encourage students to be in school every day they are able and emphasize the importance of parent or guardian communication with the school concerning student absences.

ABSENCE FROM SCHOOL

If a student is absent from school, the following is required

- We request Parent/Guardians call the school before 9:00 a.m. on the day of the absence to inform the school that the child is not in attendance for the day. **This phone call will not excuse the absence.** Please call **502-485-8241** to report the absence. **Attendance email address: Attendance@dupontmanual.com**
- Written or emailed notification must be received in order for the absence to be excused. Absence notes are to be turned in to the attendance office *immediately* upon your students return to school. Failure to present an acceptable note warrants an unexcused absence. The student has **three (3) consecutive** school days to produce a valid absence note.
- Any student who has not reached his or her eighteenth birthday, who has been absent from school without valid excuse for three (3) or more days, or tardy without valid excuse on three (3) or more days, is a truant.
- After ten (10) parent notes of absenteeism and for each occurrence thereafter, a medical statement is required to excuse an absence.
- Students who are absent will be excused for the following with valid documentation:

Absence Type	Required Documentation for Excuse
Student illness (including mental health)	Doctor note or Parent note (after 10 parent notes, Doctor notes only)
Appointments with health professionals	Professional note from Doctor/Dentist, etc.
Educational trips	Approved EHO request form
Court appearance	Court clerk or judge verification
Death of a family member	Documentation from funeral home or Obituary

Test for Driver's permit/license	Permit, license or parent note
College visit	a letter from college visited
Kentucky State Fair	Ticket stub accompanied by parent note
Religious holidays and practices	Parent note

- Students absent for any reason other than those reasons listed as excused absences will be considered as unexcused.

TARDY TO SCHOOL / EARLY DISMISSALS

- Late Arrivals and Early Dismissals are accumulated into whole day absences based on attendance events over time.
- The following are required documentation for Tardy to School/Early Dismissal

Tardy to School/Early Dismissal Type	Required Documentation for Excuses
Student illness/emergency	Doctor note or Parent note (after 3 parent notes, Doctor notes only)
Appointments with health professionals	Professional note from Doctor/Dentist, etc.
Court appearance	Court clerk or judge verification
Death of a family member	Documentation from funeral home or Obituary
Test for Driver's permit/license	Permit, license or parent note
Religious holidays and practices	Parent note

Tardy to School

If a student is tardy to school, we require the following:

- The student must report to the attendance office to sign in immediately upon arrival or at the YPAS office for students with classes at YPAS.
- Students can accumulate up to three (3) unexcused tardies during the course of a semester before disciplinary action is taken.
- Parents will be able to provide parent notes for three (3) tardies per semester.

Early Dismissals

- Parents will be able to provide parent notes for three (3) early dismissals per semester.
- After three parent notes, all additional early release requests must have documentation from the chart above or will be marked unexcused.

- Students can accumulate up to three (3) unexcused early releases during the course of a semester before disciplinary action is taken.
- To be released early from school by note, the student should report to the attendance office before first period and present a note from their parent/guardian with the student's name and grade, release time, reason for leaving school, parent's/guardian's signature, and phone number where parent/guardian may be reached to verify the request.
- **For unexpected early dismissals, students may not sign themselves out (all grades 9-12). A parent may submit the unexpected request from their email address listed in IC to attendance@dupontmanual.com. Please note, students will not be released by phone or fax as they are too difficult to authenticate.** If a parent is unable to email their request, a legal guardian (or person (s) listed on student information form) is required to sign out a student. Picture identification is required for the person signing out the student.
- Failure to sign-out properly before leaving school grounds will result in disciplinary action. **All students must be signed out at Manual, regardless of where their current class is located.**
- A student who becomes sick at school should go directly to the attendance office to see duPont Manual's school nurse. Our nurse is here to assist our students with a variety of services such as:
 - Provide direct care to students (including medicine administration)
 - Provide care for injuries and acute illness for all students
 - Assessment students for various illnesses
 - Report communicable diseases, COVID, Flu, Influenza etc., as required by law
 - Monitor the school's emotional environment (e.g., the social and emotional well-being of students)
 - Monitor immunizations records
 - Keep open communication with students, teachers, and parents.

In the event you have a sick student, our nurse can assess the student's health status, identify health problems that may create a barrier to educational progress, develop a health care plan for management of the problems, and/or ensure the student can return safely to class for the remainder of the day.

- In the event a student is unable to continue throughout the day, the attendance office must talk with the parent that the student resides with in order to be released. In the event that a parent is unable to be contacted, we will contact the emergency numbers on record. The sick student will be signed out through the attendance office. If the attendance office staff cannot contact anyone, the student must return to class if the nurse determines appropriate.
- **If you sign out for illness, you will not be allowed to sign back into school that day nor participate in extracurricular activities, sports and performances.**
- Students must be in school a minimum of three hours to participate that day in extracurricular activities, sports and performances.

COLLEGE VISITATION FOR JUNIORS AND SENIORS

- Students are encouraged to make college visits on days when school is not in session.
- Seniors are permitted three (3) excused college visits. Juniors are permitted two (2) college visits. Students must provide verification on college letterhead of attendance.

PERFECT ATTENDANCE

- Students will be permitted to accumulate ninety (90) minutes total in tardies/early dismissals and still be considered for perfect attendance.

EDUCATIONAL ENHANCEMENT OPPORTUNITIES (EHO)

An Educational Enhancement Opportunity (EHO) allows students to engage in educational activities outside of the school environment that offer significant educational value and are aligned with Kentucky's core curriculum. An approved EHO will provide students an excused absence to and be counted present in attendance. A student may be approved for up to ten (10) days. Please review the following as it relates to Educational Enhancement Opportunities:

- Explain the nature of the event and how the activity meets the criteria of (1) having an educational purpose, (2) having significant educational value, and (3) includes an **intensive instructional program in one of the core curriculum subjects such as English, science, mathematics, social studies, foreign language or the arts.**
- Funerals, family vacations, sports events, community events and religious events are **not** within the standards for approval of EHO days.
- Requests for EHO absences will not be approved during School, State, or district-wide assessments - including end of semester final exams.
- EHO absences may not be consecutively combined with parent excused notes for durations longer than two days, making a total of 12 consecutive missed days of instruction.
- Students must have a GPA of 3.0 or higher and zero unexcused absences to be eligible for an approved EHO from duPont Manual High School (Or state that students must be in Good Standing)
- All work missed due to the EHO absence(s) must be made up in accordance with excused absences within the Make Up Work Policy.
- This form and the criteria can be found on our website, in the main office, in our weekly updates, or in the attendance office for the current year.
- This completed form must be turned in to the attendance office five (5) school days prior to the scheduled event.

Students Requesting an EHO for Professional and Community Productions:

- Manual students may have a maximum of five (5) excused absences from classes to perform in professional productions (i.e. Actors Theatre, Derby Dinner Playhouse, Stage One etc.) per semester. Educational Enhancement may be used as long as the student meets the requirements. Additional requests must be approved by school administration, and cannot conflict with other school events.
- The students involved must maintain a 3.0 average or better in all classes and have zero (0) unexcused absences. The sponsoring organization of the production must provide to the Manual administration a written request to excuse the student at least two weeks prior to such event. A written request from the parent must be received by the school administration as well (to insure parent involvement and knowledge that their child will be missing classes at school).

duPont Manual High School SCHOOL-BASED DECISION MAKING

School Name: duPont Manual High School
Policy Number: M3
Subject of the Policy: Dress Code Policy

Policy Statement:

It is the policy of duPont Manual that the student and their parent/guardian hold the primary responsibility in determining the student's personal attire, hairstyle, jewelry, and personal items (e.g. backpacks, book bags). Schools are responsible for ensuring that student attire, hairstyle, jewelry, and personal items do not interfere with the health or safety of any student and do not contribute to a hostile or intimidating environment for any student.

Core Values

In relation to student dress, the school's core values are the following:

- Students have the right to be treated equitably. Dress code enforcement will not create disparities, reinforce or increase marginalization of any group, nor will it be more strictly enforced against students because of racial identity, ethnicity, gender identity, gender expression, gender nonconformity, sexual orientation, cultural or religious identity, household income, body size/type, hair texture, or body maturity, or any other issue prohibited by law;
- Students and staff are responsible for managing their personal distractions;
- Students will not face unnecessary barriers to instructional time and attendance;
- Students will be able to dress and style themselves for school in a manner that expresses their individuality without fear of unnecessary discipline or body shaming; and
- Teachers will focus on teaching without the additional and often uncomfortable burden of dress code enforcement.

Universal Dress Code

Students must wear:

- Their current Manual-issued school ID and it must be visible and free of any obstruction/defacement;
- Top that approaches the waistband of the bottom. (shirt, blouse, sweater, sweatshirt, tank, etc.);
- Bottom (pants, shorts, skirt, dress, etc.);
- Their hoods down, and hat with a bill off, except when they are outside and traveling between the buildings. For safety: No hoods or hats with bills are allowed in hallways or common areas. (Teachers have discretion for their classroom); and
- Footwear.

To ensure safety, this policy permits additional student attire requirements and reasonable variations when necessary while in certain academic settings (e.g. physical activity, theater, dance, science, or other courses).

Students may not wear clothing, jewelry, or personal items that:

- Are pornographic, contain threats, or that promote illegal or violent conduct such as the unlawful use of weapons, drugs, alcohol, tobacco, or drug paraphernalia;
- Demonstrate hate group association/affiliation and/or use hate speech targeting groups based on race, ethnicity, gender, sexual orientation, gender identity, religious affiliation, or other protected groups;
- Intentionally show genitalia or buttocks or visible undergarments beyond the otherwise permissible waistbands and straps [NOTE: Clothing must be opaque (not able to be seen through) material.]; or
- Demonstrate gang association/affiliation.

Attire worn in observance of a student's religion are not subject to this policy.

Enforcement

- The principal is required to ensure all staff are aware of and understand the guidelines of this policy.
- Staff will use reasonable efforts to avoid dress-coding students in front of other students.
- **No student will be referred to as “a distraction” due to their appearance or attire.** If the student can correct the violation immediately, they will not be disciplined or removed from class as a consequence. If the student cannot correct the violation immediately, they will be referred to the administration.
- Violations will adhere to the Student Support Behavior Handbook.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. “Shaming” includes, but is not limited to:
 - kneeling or bending over to check attire fit;
 - measuring items of clothing;
 - asking students to account for their attire in the classroom or in hallways in front of others;
 - calling out students in front of others in spaces, in hallways, in classrooms, or at school-sponsored events; and
 - accusing students of “distracting” other students with their clothing.

These dress code guidelines shall apply to regular school days and summer school days.

When a question arises, the administrative team will use discretion in deciding if a student meets the requirements of this policy.

SCHOOL-BASED DECISION MAKING**

School Name: duPont Manual High School
Policy Number: M4
Subject of the Policy: Make-Up Work Policy

Policy Statement:

The JCPS Uniform Code of Acceptable Behavior defines valid reasons for excusing an absence as student illness, visits to a physician, religious holidays, or other reasons approved by the school administrator. Only assignments made during the class meeting(s) of a valid excused absence, excused tardy, or excused early release as defined above are to be treated as make-up work.

1. If a student is absent, tardy, or has an early release from school, they shall request the make-up work and/or assignments from each class missed. Alternative assignments may be used when original assignments cannot be duplicated.

2. For each class missed due to an absence, tardy, or early release, students will have the number of class meetings missed plus one in which to complete and turn in all make-up work. Students shall request their make-up work on the first class meeting of each given class upon their return. Consequently, these class meetings will NOT be counted for make-up purposes. (For example, a student who misses Monday will obtain make-up assignments on Wednesday, and these assignments will be due on Friday.)

3. All work assigned prior to an absence, tardy, or early release which is due during the day(s) of the absence is to be turned in to the teacher immediately upon return to the class. In the event new learning was presented during the absence that is required for completion of an assignment, the student shall have the number of days plus one to complete the assignment that was due.

4. For absences in which a Mastery assessment (including tests) was scheduled before the absence, the student must be prepared to take the mastery assessment upon return to class. Note: Class reviews are not considered as new material. In the event that new information for the exam was presented on the date(s) of absence, teachers may modify the exam or schedule a date to make up the exam. The student is not entitled to more than the number of days absent, plus one to make up the assessment.

5. When a student is unable to take a final assessment due to an absence, the student must meet with their ~~assistant principal~~ **teachers** to determine an appropriate timeframe for completing the assessment upon return. In the event the absence is planned in advance, ~~please~~ **students must** notify ~~the assistant principal~~ **their teachers** as early as possible.

6. Students who have extenuating circumstances beyond the intent of this policy, may work with their teacher, counselor, or administrator to help assist with make up work expectations.

SCHOOL-BASED DECISION MAKING**

School Name: duPont Manual High School
Policy Number: M6
Subject of the Policy: Summer Assignments

Policy Statement

The duPont Manual Student Senate hereby recommends the following policy regarding summer assignments:

- Summer assignments must be uniform for a given course, regardless of the teacher.
- Summer assignments will be graded within the first six weeks' grading period of the school year. Good students do their work and reading at the beginning of the year. Delaying grading beyond the first six weeks encourages procrastination and discourages good study habits.
- Information about the content of summer assignments must be available to students and posted on dupontmanual.com by May 15th of the preceding school year.
- Summer assignments may only be assigned for AP classes and courses required for graduation.
- Students transferring into a class will be given at least two weeks to complete any summer assignments for that class.

By enacting these policies, we can make summer assignments less variable and more accountable, and so ultimately more fair.

Teachers should provide accommodations for summer assignments according to a student's 504, IEP or special circumstance on a case by case basis.

SCHOOL-BASED DECISION MAKING**

School Name: duPont Manual High School
Policy Number: M9
Subject of the Policy: Academic Integrity Policy

ACADEMIC INTEGRITY:

The success of any school relies on the combined efforts of all members of its community: teachers, students, administrators, and parents. Nowhere is this combined effort more important than in ensuring the integrity and fairness of the school's academic program.

Academic Integrity is the pursuit of learning conducted in a fair and ethical manner.

All community members share responsibility for creating an environment in which academic integrity is expected. Each constituency shares responsibilities with others and has its unique role to play.

Our goal is to create a school community in which every member is assured that integrity and fairness are the norm, that violations of this norm are not tolerated, and that actions that undermine this expectation are handled firmly and consistently. In the end, the purpose of this expectation is to create a school where each student can proudly state of each assignment:

This work is my own. I have neither used, received, nor given unauthorized aid in its completion.

Integrity Education

In keeping with the school's role as a center for all types of learning, including the building of character for life after high school, duPont Manual resolves to teach all students the meaning and relevance of integrity in their academic and professional careers.

Teachers

- The administration shall provide professional development opportunities for all teachers focusing on their role in addressing academic integrity issues, understanding the underlying dynamics of academic dishonesty, and their role in enforcing this policy.
- All English teachers will be responsible for educating their students about plagiarism and methods to avoid plagiarism in their written work.

Students

- The administration shall provide at the beginning of each school year a lesson for all students on academic integrity, stressing the damage that dishonesty does to the school and other students, the importance of maintaining integrity in future pursuits, methods to avoid compromising one's academic integrity, and the consequences of academic dishonesty.

Parents

- The administration shall collaborate with the PTSA to provide information and support to parents as they carry out their responsibilities under these expectations.

Responsibilities

Teachers, Students, Administrators, and Parents have the responsibility to:

- recognize that the purpose of education is the development of knowledge, skills, and habits, not the accumulation of points.
- work together to ensure academic integrity, supporting others in their attempts to carry out their responsibilities.

Teachers have the responsibility to:

- hold themselves to the same standards of integrity that they expect of their students.
- provide expectations regarding student work in the course syllabus, including what is permissible in terms of collaboration.
- give rigorous, relevant, and equitable assignments and assessments.
- respond sensitively and in a timely manner to student and parent inquiries regarding course content and expectations.
- refer students to resources or provide help when asked or when it is apparent that students are struggling in the course.
- keep accurate records of student performance.
- use plagiarism detection software, including Artificial Intelligence (AI) detection, when appropriate
- enforce the Academic Integrity Policy by reporting every incident that they believe, based on evidence, and represents a violation of the policy.

Students have the responsibility to:

- read and understand the Academic Integrity Policy, including their own teachers' expectations as set forth in those teachers' syllabi.
- sign a statement indicating their understanding of these policies and their commitment to uphold them.
- clarify with the appropriate teacher any ambiguities they perceive about whether a particular action is acceptable before taking the action.
- take an active role in their own education--to choose classes at appropriate levels, to seek help when they need it, and to avoid placing themselves in situations that make unacceptable behavior tempting.
- include the integrity statement on all graded work, when requested by the teacher

Administrators have the responsibility to:

- assist teachers in providing authentic assignments and assessments.
- make the Academic Integrity Policy available to all students, teachers, and parents.
- design and institute the integrity education programs included herein.
- keep accurate up-to-date records on Academic Integrity Policy violations for the duration of each student's high school tenure.
- enforce the Academic Integrity Policy and apply consequences consistently and in a timely manner.

Parents have the responsibility to:

- familiarize themselves with and sign a copy of the Academic Integrity Policy and discuss the policy with their child.
- familiarize themselves with individual teacher policies/expectations and discuss them with their child.
- be actively involved and engaged in what their child is learning, but avoid providing assistance that would be in conflict with the Academic Integrity Policy.

- support school consequences for Academic Integrity Policy violations.
- be sensitive to the pressures students face and adjust expectations accordingly.

Policy Violations

Academic dishonesty is any attempt to gain academic credit or recognition to which one is not entitled or to assist others to do so. Academic dishonesty includes, but is not limited to:

- copying, or allowing the copying of, graded work
- gaining unauthorized prior knowledge of assessments or providing such knowledge to others
- transmitting or receiving information related to the content of graded work, whether through text, voice, images, or another medium
- misrepresenting situations for academic gain, including as a ploy to receive additional time to complete graded work
- falsifying data or sources in graded work
- altering a grade, whether on an individual assignment or in student records
- collaborating with others beyond what a teacher allows
- violating the rules of school-sponsored academic competitions or assessments
- plagiarism--the stealing or using of others' words, original ideas, or work without crediting the original source. Examples of plagiarism include, but are not limited to:
 - using others' words, ideas, phrases, or work without giving accurate documentation
 - downloading information from the Internet in part or in whole and inserting it into one's work without giving proper credit to sources
 - copying the structure and organizational pattern created by another writer.

Student Rights

Students have the right to:

- confidentiality (beyond the notifications outlined)
- due process, including the right to appeal
- a learning environment where all students' grades are an accurate reflection of their own work
- any additional rights as outlined in the JCPs Student Bill of Rights

Consequences of Violations

When a teacher determines that a student has committed an act of academic dishonesty, the teacher shall submit to the assistant principal a referral detailing the nature of the offense. Students have the right to due process as outlined in the JCPs Code of Conduct. The assistant principal shall then document the offense and apply the consequences as outlined in the behavior consequence section of this handbook.

Violations accrue over a student's entire academic career at duPont Manual.
