

# Thirst

Thirst caps at 40 points, reduced when exhaustion point reaches the maximum. If Thirst drops to 0, you will suffer from dehydration and loses health. See [Status](#) for info on how to check your thirst status.

Thirst points:

- Melon Slices restore **6 points**
- Water Bowls restore **10 points**
- Hot milk restores **10 points** (Be careful, it'll burn ya)
- Dirty water bottles restore **13 points**
- Cold milk restores **15 points**
- Clean water bottles restore **18 points**
- Purified water bottles restore **23 points**
- Coffee restores **23 points**
- Mushroom Soup restore **12 points** (Hunger is restored too, hybrid)
- Milk restores **30 points**

## Water bowls

If you are thirsty, craft a Bowl to obtain water.

Simply throw 1 Bowl into a water source, it will become a Water Bowl.

Drinking it will quench the thirst. Drinking impure water runs a 60% risk of getting poisoned for 4 seconds. Purified water is recommended when cauldrons are affordable.

## Water Bottles

Water Bottles can be obtained by right-clicking a glass bottle into a water source, but it's not purified and not safe to drink.

Drinking impure water has a high chance to get Poison for 4 seconds.

To get rid of that risk, you can either clean your water or purify it:

## Clean Water:

Clean water will have a medium risk of getting poisoned. There's a couple of ways to get clean water:

- 1) Throw a dirty water bottle on the campfire:

- 2) Throw a dirty water bottle in a furnace or smoker:

To clean water this way will take longer than most cooking recipes.

### **Purified Water:**

**Purified water** is the cleanest water you can get. It will have no negative side effects and it will replenish your thirst meter a lot quicker.

- 1) Make a **Cauldron** and prepare a **fuel block**.
- 2) Light the Cauldron with **fire**.
- 3) Fill the Cauldron with **water**.

- 4) Fill the glass bottles with this **purified water**.

**Coffee:** 

You can craft coffee in their crafting table.

When drank, it will increase your thirst level by 23 points, and will also refresh your energy level.

## Emptying Containers

Simply throw a water bottle, water bowl or potion in your workbench, and you will get back an empty bottle/bowl
