Please place new section under Lip Filler Results*

note to dev: please include images of the filler vials beside of the information and place it in a very attractive way

H2 The Best Lip Fillers Options are Available in Beverly Hills with Dr. Eman

Whether you want to plump your lips or achieve a subtle change, the correct Juvéderm formula can enhance your lips in Beverly Hills. Dr. Eman is known for being one of the best lip filler providers in the area, and it is in due part to her extreme filler knowledge and ability to select the best lip filler for you in Beverly Hills.

Some of the best lip filler options include:

H3 Juvéderm Volbella XC

Juvéderm Volbella XC is a hyaluronic acid filler that is crystal clear and injected directly into and around the lips using an ultra-fine needle. This formula temporarily plumps and enhances the lips for the perfect non-surgical lip augmentation. In addition, this impressive facial filler smooths out the appearance of lines on and around the lips.

This formula contains lidocaine gel, which improves clients' comfort, making it a comfortable lip filler option.

Juvéderm Volbella XC is also known as one of the best and longest-lasting lip fillers available. This impressive formula lasts for up to 1 year.

HC Juvéderm Ultra XC

Much like the Volbella option, Juvéderm Ultra XC is an HA filler directly injected in and around the lips for enhancing and plumping the lips and improving lip symmetry. This filler formula also temporarily provides lip enhancements. Ultra XC results last for up to a year.

The lip filler formula also consists of a gel lidocaine for improving patient comfort.

H3 Restylane Kysse

Restylane lip fillers were created with lip movement in mind. That is why the Restylane Kysse is made with XpresHAn Technology™, an innovative hyaluronic acid (HA) gel for the most natural-looking lip enhancements.

This popular filler is flexible and supports a natural feel, so your lips remain soft and supple.
