**Student Number: 25827635**

**Position for Nomination: Vice President (Activities)**

As an active member of the UTS Law Students' Society and in my role as Socials Director this past year, I have held a genuine passion for making everyone in our community feel connected and supported. This is exactly what I am so eager to build as Vice President (Activities), an Activities Portfolio whose main priority is giving students a small break from the stress of law school through social and sporting events, all to create an outlet to relax, connect and have fun.

As a 2026 Socials Director, I have assisted in organising and hosting events from First Year Law Launch, the Start of Semester parties, Law Cruise and Law Ball, alongside my involvement in weekly Social Sport. Each event has taught me something new about the building of a strong community, from watching friendships form on the netball court or on the dancefloor at Start of Sem to seeing first-years find their friends who will last for many years and watching all years come together at Law Ball to celebrate the conclusion of a great year.

My experience in this role and working with my own VPA has shown me what the role demands, from booking venues and vendors, staying organised under tight deadlines, organising marketing timelines, planning decorations and working with other university associations, all roles which I will uphold as VPA.

As VPA, I would work on building the foundations we already have, pouring my energy into all the annual events and sport initiatives that have been established over the years and building on new initiatives such as the inaugural First Year Law Launch. Seeing Law Launch come to life and watching first-years leave with new friends is something I want to ensure stays in our LSS calendar for years to come. I also want to continue growing our Sports portfolio, whether it's encouraging people to play on the field at Social Sport, or simply cheering for their friends on the sideline.

I have seen the cheering brought from one Futsal goal to the endless smiles at Law Ball and I want the chance to keep this culture growing for every new student joining our society and every standing member for the years to come.
