

Dear Parents

8 July 2021

The school policy is to endorse all Sporting Governing Bodies in their guidelines surrounding the use of dental protection within PE and games. All pupils taking part in Rugby or Hockey at the school throughout the school year will require a mouthguard.

Titan Mouthguards can cater for all students wishing to purchase a custom, dental-fit mouthguard with their remote E-Fitting service, allowing pupils to have their mouthguards fitted and received in advance of the start of the 2021/2022 school year. Along with this, a range of boil fit mouthguards are also available should you feel this is a more suitable option for your child. If you wish to take advantage of this service, please complete your online order by clicking the following link:

**Girls:**

<https://titanmouthguards.com/product/claires-court-school-special-edition-girls/>

**Titan offer 10% off sitewide for all Claires Court pupils – use code "CLAIRES COURT 10" when prompted at checkout.**

As well as their standard styles, Titan has designed a School Special Edition in their custom-fit range with the school colours and crest. The mouthguard cost is £39.99.

Those with a fixed brace should also follow the link. Titan also provides mouthguard options for those with a fixed brace and your preferred fitting method can be selected on the school's online order form. For a faster production time of your custom-fit mouthguard, please place your order and return your impression to Titan before 20/08/2021. If ordering in September and October, please allow a 10-15 working day production time, due to increased production demands.

**Any questions on school mouthguards or any of the details above should be sent directly to Titan (not to school staff) via their customer service email address: [info@titanmouthguards.com](mailto:info@titanmouthguards.com)**
