

## Supply List for “Advanced Wool Embroidery Stitches”

Instructor: Rebecca Fry

- Various embroidery threads in colors and sizes that compliment your wools (I like pearl cottons, myself, but floss and other things will work just fine).
- Chenille needles big enough that your threads slide through them easily. A selection of sizes of needle will give you lots of options for thread choices.
- Milliners needles in the biggest size available. This will be between size 4 and size 1.

Basic sewing supplies.

The emphasis of this class will be on **learning and practicing** several somewhat more complicated embroidery stitches. A certain amount of experience with hand embroidery will be necessary.

I will provide some muslin to practice on. You don't actually need your wools for this class but feel free to bring them if you prefer to practice your stitches on wool. Or bring your current project!
