ABSTRACT

This document presents the required layout of papers to be submitted for publication at the International Journal of Computing. The abstract must summarize the paper content and should have a reasonable number of words – 150-175 is an optimum number.

KEYWORDS: keyword; keyword; keyword; ... keyword (up to 5 words).

INTRODUCTION

There needs to be an adequate summary of references to describe the current state-of-the-art or a summary of the results.

LITERATURE REVIEW

If the research reviews the literature, this section can be used to explain the variables construct, the factors that influence it, and other things that are considered important.

RESEARCH METHODS

Provide sufficient detail to allow the work to be reproduced. Methods already published should be indicated by a reference: only relevant modifications should be described.

RESULTS

Results should be clear and concise.

CONCLUSIONS AND SUGGESTIONS

The main conclusions of the study may be presented in a short Conclusions section, which may stand alone or form a subsection of a Discussion or Results and Discussion section.

ACKNOWLEDGEMENTS

Collate acknowledgements in a separate section at the end of the article before the references and do not, therefore, include them on the title page, as a footnote to the title or otherwise. List here those individuals who provided help during the research (e.g., providing language help, writing assistance or proofreading the article, etc.).

SUBDIVISION

Divide your paper into clearly defined and numbered sections. Subsections should be numbered as A, B, C, ..., etc. (the abstract is not included in section numbering). Use this numbering also for internal cross-referencing: do not just refer to 'the text'. Any subsection may be given a brief heading. Each heading should appear on its own separate line.

FORMULAE

Mathematical expressions and Greek or other symbols must be written clearly with ample spacing.

UNITS

Follow internationally accepted rules and conventions: use the international system of units (SI). If other units are mentioned, please give their equivalent in SI.

REFERENCES

FIGURES

Electronic version in EPS (Encapsulated Postscript) is preferred. The illustrations must be sharp, noise free and of good contrast.

PLEASE DO NOT:

- Supply files that are optimised for screen use (e.g., GIF, BMP, PICT, WPG); the resolution is too low;
- Supply files that are too low in resolution;
- Submit graphics that are disproportionately large for the content.

PAPER SIZE

The authors should submit camera-ready paper in MS Word format by e-mail. Use A4 (210 x 297 mm) format of the paper. Leave 22,9 mm at the top, 18, 3 mm at the bottom, and 13,1 mm margins at left and right. The camera-ready paper size should be no more than eight pages without authors photos and CVs. Authors are strongly recommended to leave on the last page some place for photos and short author's CVs. Please, don't use numbering pages in your papers.

LAYOUT

The text should be typed single-spaced. Use Times New Roman typeface for normal text.

Center the title (Helvetica, 22 points, bold), author(s) name(s) (Helvetica, 10 points, bold), affiliation(s),

address(es), e-mail and Web/URL (Times New Roman, 7 points, regular). Leave one blank line below the title, and affiliation(s).

Then put short abstract of the paper (no longer than 150 words). For word Abstract use Bold. After it insert one blank line.

Below inserts a list (preceded with one and followed with two blank lines) of up to 10 keywords. For the word Keywords use Bold.

Type the text of the paper (10 points, regular) in two columns 8,5 mm wide, separated with a 5 mm space. Balance the length of the columns, especially on the last page of the paper. Each column should be justified. The first line of each paragraph is to be indented 5 mm. Headings must be numbered. Please use Roman numbers only. Use only one level of headings (Helvetica, 10 points, bold) and precede each of them with one blank line. Use spacing of 12 points before headings.

Place a full list of references at the end of the paper. Please place the references according to their order of appearance in the text. Enclose the numbers in square brackets.
