

## ▶ Welcome

Hello, New User.
Thank you for visiting the Vtuber concept guide. Toka will boot shortly.
For full immersion, you may listen to this audio while reading.

**Toka**

*Hey! I'm so glad you're here.*
*Thanks for booting me up, it was getting lonely. I don't remember when was the last time someone logged in here. It would be great to get to know each other!*

*next >*

**Toka**

*You can find most of my information in this concept guide.*
*If you're curious about me, you can ask me anything!*

# Appearance

*Art by Tsukayen*

I'd like to firstly thank Tsukayen for going through the character design process with me!

**Physical description:**
I have a medium physique with slightly broad shoulders. Partially built and 160cm tall. Platinum blonde hair with a purple streak across my fringe. My eyes are purple and fun fact, my foot size is about 26 centimetres :3

**Apparel description:**
*I wear a white sleeveless sports crop top that has a thick black stripe that goes across my shoulders. I also wear a harness that straps around my shoulders and buckles below my bust. My shorts are slightly above the knee with a white seamed section clasped on my left leg. My belt is two-toned with purple and white and the buckle is a hollow play button. The jacket is mid-sleeved and is mainly dark purple/black and white while accented with purple and yellow. The shoes I wear are referenced (see picture above). On my hands are black fingerless gloves. The right side of my chin and some parts of my body are bandaged, they signify some of my scars from eczema - a skin condition.*

Everyone has an ideal version of themselves. The Toka visualised on my Twitch is an aesthetic that is ideal to me. *News flash, I don't actually look like this* ~~*but i wish i did tho*~~

This design concept was inspired by game series like ***Sonic Riders*** and rhythm game aesthetics from ***Pump It Up XX*****,** ***MaiMai PiNK*****, and** ***Muse Dash.*** I have always liked the futuristic and urban concept. But to be honest though, my taste is all over the place, so it's hard to stick to one concept xD

Who knows, what if I make new aesthetic versions for my persona? :3

Behind the looks though, **I am just being myself** - just an average (smooth brained) youth exploring new things. I try to be as authentic as I can when I'm online. That way, you'll know if you can vibe with me.

# Setting the Scene

**Toka**

*Welcome to the virtual arcade!*
*We've not come up with a name for this place though, maybe we can come up with one together?*

*next >*

**Toka**

*Since this place is virtual, it can be anything we'd want it to be!*
*I'm thinking of turning this place into some sort of multistorey recreational building that just has everything anyone would need or want.*

*next >*

**Toka**

*When everyone's logged off, I'm usually just here by myself. Sometimes Flippy hangs out with me, but he's normally doing his own penguin deeds.*
*Perhaps you'll stay with me for a while?*

*next >*

# More About Toka (Q&A)

**Q: Is it Toka or Tokaa?**
My name is Toka. My Twitch is “xTokaa” simply because “xToka” was taken. Hence my Twitter will just be the same to prevent confusion. I won’t correct you if you call me Tokaa though :)

**Q: What do you stream on Twitch?**
I’ve predominantly been streaming Genshin Impact as it’s my comfort PC game as of late. I may play different games here and there, especially if I’m collabing with another streamer! Occasionally you’ll see me do Art streams :3

**Q: Why did you start streaming?**
I mainly stream as a hobby because I like creating content and interacting with chat! Although I like connecting with people, I really dislike big social gatherings (e.g. university orientations, parties, etc.) so streaming became a good alternative for me! Also, the lockdown didn’t let me do much outside of home. I’m so glad I started streaming because I got to talk and interact with all of you!

**Q: What do you do outside of streaming?**
I play at the arcade! My 2 favourite arcade games are Pump It Up and MaiMai. I also like to do design and editing work. I’m no professional, but I have pieces that I’m really proud of! I have a full-time job now, so I don’t have much time to do these since I prioritise my PIU training.

**Q: What are your goals for streaming?**
Streaming may remain a hobby for me as I’m currently pursuing a degree in Psychological Science. I’m taking it one step at a time though, I’m still exploring many of my interests, so who knows what will happen. It’s a little hard to see myself streaming full-time but I’ll try to make time for streaming while I study in my final year. I hope you can stick with me <3

**Q: How can we reach you?**
You can reach me on Twitter (@xTokaa) or join my Discord server to bing chilling with the community~
