Privacy Policy

Last Updated: October 22, 2026

This Privacy Policy explains the collection, use, protection, and sharing of personal data of individuals ("User" or "You") who use the YAMKA: Study & Coach ("Application") mobile application provided by Samsun ("Developer", "we", "us", or "our").

By using the Application, you agree to the terms and data processing activities described in this Privacy Policy.

1. Target Audience and Terms of Use

Our application is designed for individuals seeking general study, planning, and coaching support. Our services do not contain content specifically directed at children and do not knowingly collect personal data from children under 13. If it is identified that a child has shared personal information without verifiable parental or guardian consent, such data will be deleted from our systems immediately.

2. Information Collected and Purposes of Use

The following data is collected to provide uninterrupted services, ensure account security, and optimize user experience:

Account and Identity Information: Your email address, encrypted login credentials, and optional profile information (such as name or username) provided during registration or login. This information is processed for user authentication, account recovery, and secure synchronization of your data across devices.

Study and Coaching Data: Study schedules, goal tracking records, notes, timer logs, and personal preferences created within the Application. This data is processed solely to operate the core study and coaching functionalities of the Application.

Technical and Device Information: Device model, operating system version, IP address, and basic interface performance metrics used for technical troubleshooting, performance optimization, and bug fixing.

3. Advertisements and Third-Party Service Providers

To maintain the Application and offer features free of charge, the Google AdMob infrastructure is utilized as a third-party advertising provider.

Google AdMob may process your device's Google Advertising ID (GAID) and anonymous usage metrics to manage ad frequency, prevent fraudulent clicks, and measure advertising performance.

Users can limit personalized advertising at any time through their mobile device settings (e.g., Settings > Privacy > Ads).

For more details on the privacy practices of our third-party service providers, please review the links below:

Google Play Services: https://policies.google.com/privacy

Google AdMob: https://policies.google.com/technologies/ads

4. Data Security and Sharing

Your personal data (such as email address, study records, etc.) is never sold, rented, or shared with any third-party institutions, organizations, or individuals, except where legally required by official regulatory or judicial authorities. Your data is stored on cloud infrastructures protected by standard security protocols and encrypted communication channels (SSL/HTTPS).

5. User Rights and Account Deletion

Users maintain full control over their personal data stored within our systems. At any time, you have the right to:

Request access to the data stored about you,

Request the correction of incomplete or outdated information,

Request the permanent deletion of your account, email address, and all associated study data from our systems.

Users can request the permanent deletion of their account and all associated data at any time through our online deletion form:https://docs.google.com/forms/d/e/1FAIpQLSds4bxsMm07i2sG4P1BS7HLbofRjcqsqh5OXF7rZuYNjI_4pQ/viewform?usp=dialog

Alternatively, you may submit your deletion request directly to our contact email address below. Your request will be fulfilled within the legally required timeframes, and your data will be permanently erased.

6. Changes to This Policy

This Privacy Policy may be updated periodically. When new features or service models are introduced, changes become effective immediately upon the publication of the updated text on this page.

7. Contact Information

For any questions, concerns, or data deletion requests regarding this Privacy Policy and data security practices, you can contact us directly:
