

Privacy Policy

This privacy policy applies to the K sea app for mobile devices (collectively, the "Application") created by HAMANI DEV (referred to as the "Service Provider").

1.Information Collection and Use:

The Application is designed as a local, offline tool. The Application does NOT collect, store, transmit, or share any personal data, device identifiers, IP addresses, location data, or usage statistics. All calculations and features run entirely on your device.

2.Cookies and Tracking Technologies:

The Application does NOT use cookies, tracking pixels, or any third-party tracking tools to collect user data.

3.Third-Party Services:

The Application utilizes Google Play Services to support core functionality on Android devices. Google Play Services may collect limited technical data as outlined in their own privacy policy:

- Google Play Services: <https://policies.google.com/privacy>

K sea may provide links or shortcuts that open external websites, such as Google Search, through your device's default web browser. K sea does not collect, transmit, or share personal information through this feature. Any data or information collected by the external website is subject to that website's own Privacy Policy and Terms of Service.

4.Children's Privacy:

The Application does not collect any personal information from anyone, including children. It is safe for users of all ages.

5.Data Retention and Deletion:

Since the Application does not collect or process any personal data, the Service Provider holds no user data to retain or delete.

6.Security:

We value your trust in using our Application. Since no personal data is collected or transmitted over the internet, your information remains fully secure on your own device.

7.Changes to This Privacy Policy:

The Service Provider may update this Privacy Policy from time to time. You are advised to review this page periodically for any changes.

This privacy policy is effective as of 2026-09-26.

8.Contact Us:

If you have any questions or suggestions about this Privacy Policy, do not hesitate to contact the Service Provider at dhiya.developer@gmail.com .

Terms & Conditions

These terms and conditions apply to the K sea mobile application (collectively, the "Application") created by HAMANI DEV (referred to as the "Service Provider").

By downloading or using the Application, these terms will apply to you. You should make sure that you read them carefully before using the Application.

1.License and Intellectual Property:

The Service Provider grants you a personal, non-exclusive, non-transferable, revocable license to use the Application on your mobile device.

Unless otherwise stated, the original intellectual property, trademarks, copyrights, designs, graphics, and code created specifically for the Application remain the property of the Service Provider (HAMANI DEV).

You may not copy, modify, distribute, sell, or reverse engineer the original parts of the Application without appropriate authorization.

Third-party software and open-source components used by the Application remain subject to their respective licenses.

2.Usage and Offline Functionality:

The Application is designed to function locally on your device and provides marine cycle, calendar, astronomical, and related informational calculations.

The core functionality of the Application does not require an internet connection.

Some optional features may open external websites through your device's default web browser. When this happens, the external website operates independently from the Application.

3.Third-Party Services:

The Application utilizes Google Play Services to support certain functionality on Android devices. Google Play Services is provided by Google and is subject to Google's own terms and policies.

Google Play Services: <https://policies.google.com/terms>

Other external websites or services that may be accessed through the Application are subject to their own terms and policies.

4.Information and Disclaimer:

The information and calculations provided by the Application are intended for informational and reference purposes only.

Marine conditions may vary due to weather, wind, local conditions, geographical differences, and other natural factors. Therefore, the information displayed by the Application may not always exactly match actual conditions at a particular location or time.

The Application should not be considered a substitute for official weather, marine, navigation, or safety information.

Users should not rely on the Application as the sole basis for decisions involving swimming, diving, fishing, boating, navigation, or other activities where safety may be affected by sea or weather conditions.

The Service Provider makes reasonable efforts to maintain and improve the Application, but cannot guarantee that all information will always be completely accurate, complete, current, or suitable for every location or situation.

To the extent permitted by applicable law, the Service Provider shall not be responsible for losses or damages resulting from reliance on information provided by the Application.

5.Updates:

The Service Provider may update the Application from time to time to improve performance, fix errors, update information, add new features, or update software components.

Updates may add, modify, or remove certain features.

The Service Provider may also discontinue or replace the Application in the future if necessary.

When an update is available, users may need to install it to continue using certain features or to benefit from improvements and fixes.

6.Changes to These Terms and Conditions:

The Service Provider may update these Terms and Conditions from time to time.

When changes are made, the updated version will be made available to users and the "effective as of" date will be updated accordingly.

You are advised to review these Terms and Conditions periodically for any changes.

These Terms and Conditions are effective as of 2026-09-26.

7.Contact Us:

If you have any questions, suggestions, or concerns about these Terms and Conditions, please contact the Service Provider at:
