

hi, anon here

i want to come forward and talk about my experiences with Skril/Bones and explain why it's taken me so long to come forward about this til now.

I was a fan of Twisted-Doctor from 2017-2021, and i was friends with him in 2021, close friends, i am no longer in the Doll Eye fandom and i don't wanna be associated with it anymore, i want to stay anonymous and wish to stay anonymous, i have been terrified for my life for a year now and now i feel safe enough to come out about this.

To everybody that is coming out about this, i wish you well in life and i hope you're doing okay, you are not alone.

## **The Symptoms/Private Server**

I, myself, used to be friends with Skril/Bones, who was 19 at the time, we used to have a private server called "The Symptoms", this server contained our friend group that had people that were the ages of 16, 17, and 18 at the time, this group was made in March of 2021 and i left the group in May of 2021. (i do not have enough screenshots for this server as i do not have access to the server as of right now, so i'm really sorry)

This server was made so our friend group could talk in his lives that were held on PicartoTV at the time, this was before he started streaming on Twitch. This server was originally supposed to be for that but it then turned into a group chat like area for all of us to talk privately.

I think it was after a live, there was me, 2 17 year olds at the time, and him, in the server at the time, and something happened in the official doll eye server that caused Skril/Bones to break down and start venting to us, at one point in this vent, he started talking about his favorite ship, Mystery x Paster, talking about how it was a comfort to him and talking about how he sometimes would masturbate to it.

He would talk about topics like this in front of us, blaming his hypersexuality on most things most of the time.

Below is a screenshot of proof that i was in this private server “The  
Symptoms”

At one point, Skrill and the group of one 16 year old, three 17 year olds, and one 18 year old made a private group chat that i wasn't allowed in, where he said he was gonna talk about sexual topics with them, note, he was 19 at the time, his excuse as to why he let the 16 and 17 year olds in was because "they're almost adults, its not like im sending any porn to them", i remember one time when i joined a vc while Skrill and one 17 year old were having a conversation and they both stopped and asked me to leave because they were talking about sexual topics. Skrill went on to make ship art of my Sona, Neon and his sona, Pastery, and even roleplaying with me in private dms

Again, i left this server in May of 2021, so i don't have a lot of screenshots on me atm, sorry.

## **Skrill's Private Twitter/Manipulation**

Skrill had/has a private twitter that he made for our friend group, a private twitter where he would talk about sexual topics, vent about his hypersexuality, and private quote retweet anybody that was talking bad about him because of the drama that was going on, i no longer have access to the acc

I think it's tucked up that things happened to me

I'm sofucking real

Honestly

When a drama that was going on at the time the private server was new, we all got in a call to talk about it. Skrill talked about his side and cried to us in call, even threatening a person that was involved with the drama with legal actions to keep them quiet. When he “wrote” the apology he made for the drama, we had to help him out.

Update (November, 17th, 2022):

It has been brought to my attention that Skrill has gone on his private server and exposed who i was, even tho i wished to stay anonymous. For context on the bio he made, he’s calling me a “liar”, which is obvious context, and calling me a “scammer”, the context behind this i used to work with him on a plushie campaign with him, when the chat of me talking about his actions last year got leaked to him, he wanted me to send the plushies to one of his close friends, but, that would’ve meant the close friend would’ve gotten a hold of my address as well, and after i was threatened with my home address + phone number, of course i was terrified to do it, because it wasn’t safe. I was harassed by him for months because of this, and the day i finally gained the courage to block him on everything, he and his close friend harassed me by calling me non stop, joining my server, and

dming me non stop.

## October of 2021/Threatening To Silence/Racism Allegations

In October of 2021, Skrillex was exposed for being racist. This made me go to an ex mutual and talk to them about Skrillex and tell them about how when i was friends with Skrillex, and how Skrillex was weird/strange towards me, the conversation ended up being leaked (it was not the ex mutuals fault) and Skrillex saw me talking about what he did, he threatened me by threatening legal action and threatening me with my home address and threatening to contact my family in order to keep me silent, Skrillex was 20 at this time

Down below is proof of Skrill threatening me with legal action if i were to say anything, telling me to tell people it was a lie, and threatening with my legal address, again Skrill was 20 at this time.

Bro what

I know that you might be disgusted at what I have done, but fake accusations are so much lower than anything I have done. What the fuck

If you go around spreading false accusations like that I am literally going to get legally involved. Grooming is serious shit dude

Either we talk this out like mature human beings or I am going to have to get the law and your address+phone number that you have provided me involved (not doxxing, just to report the accusations to your parents and authorities if needed) I let people step on me all the time but I won't let strawmanned grooming accusations pass through. Hell no (edited)

And to whoever you already told these accusations to, you better admit that it's a

And lastly, this is not me being petty. This is all legal shit and I will have to take legal action if you do not listen to my requests/warnings

He even went out and made a public post as another way to silence me, referring to me and telling his fans not to believe me if i were to make a callout post at that time

:~D!! ❤️❤️❤️ @twiist... · 10/26/21 ...

UPDATE 2:

I would not blindly believe anyone that is going to make public accusations, people are (rightfully) really upset and are (not rightfully) planning to make accusations that are incredibly strawmanned and seriously damaging for the sake of revenge public humiliation

I will hold accountability for what I do (honestly if you simply talk with me I am more than willing to improve and not repeat the same things again) but just because I admit to having done repulsive shit that does not mean I have done every repulsive thing people claim I've done

He then turned this whole thing around and made me look like the bad person, i lost friends because of this. He made me turn around and go out and tell people i was lying.

I kept him as a friend on discord for a while afterwards because i was terrified of him doing anything, but at one point, we talked about the racism accusations he had against him.

Down below is some responses he made while talking about it, talking about the person who exposed him for being racist

I have said people are afraid to hang around them because I have seen and talked with these people

The way you were so quick to turn against me without even talking to me has seriously damaged my trust issues as well  
(edited)

It almost feels like you are trying to forget who I was and appeal to [REDACTED] because you too are afraid to be called out for being simply ok around me, you were even mimicking their words in some post  
That's how it feels, idk if that's the reality, but that's how it feels I suppose

This is what I mean

appetite because i keep getting dragged back into the drama by people and its stressing me out so much to the point where i also fear of going on social media and have to please ask people to stay away from me if they support you

Again, i don't mean to put you down or throw u under the bus calling you a shitty person, i just wanna talk to you

So YEAH they are kind of controlling the narrative

By disabling comments

By blocking me literally everywhere and not allowing me a word

By blocking whoever will disagree with them

By leaving out important context

Or even twisting the jokes to have a mocking meaning

You are not forced to side with me. Don't ever feel forced to pick a side, do things on your own accord

But I am glad you came to talk to me this time

I am disappointed that you made public posts and turned against me without giving me much of a chance

But also I can kind of understand that it plays into the fear that you will be the one getting called out just like me

And i think what makes it very clear in your case that  has made you paranoid is the fact that you are able to support a project created by  but  then act very disgusted by doll eve

This is all i have to say about this and this is all im comfortable talking about, im still terrified because of the threats but I am seeing therapist, I would like to thank those who have stuck by me this past year, i really appreciate you

And as for you Skril.

You've seriously ruined me, I wanted to be like you one day but now i understand the saying "never be friends with your idols". What you've has left me a permanent scar that will last possibly forever, i get sick to my stomach hearing about you, i get sick to my stomach seeing your art or characters, i don't think i will ever forgive you. I know you apologized to me last year, but i didn't really mean it when i said i forgave you, I was scared because you threatened me. I will never forget this.
