}}
```

=Summary=

""**SYSTEM**"" is a [[star system]] in the universe of No Man's Sky.

==Space Crystal Composition==

Every system's space crystals always provide the same type of material within that system. This system provides **MATERIALTYPE**.

==Other Aliases==

```
{{alias|platform=PC/PS4|text=Original|name=}}
{{alias|platform=PC/PS4|text=Current|name=}}
{{alias|platform=PC/PS4|text=Other|name=}}
```

=Location=

==Hub Management System Info==

*Distance to Center:

*Distance to SouthernLight:

*Distance to Rentocnijik Expanse Black Hole:

*Distance to FistOfTheNorth:

==Coordinates==

_{"NOTE:" Coordinates correspond to the location of entire regions, not specific systems. Although the "PART4" is unique to a system and only appears once in each region, it doesn't correspond with location, and thus cannot be used to locate the system. In other words, for all the coordinates in the Galactic Hub, there are only 11 effective outputs.}

```
{{coords|PART1|PART2|PART3|PART4}}
```

=Planets & Moons=

This star system contains **NUMBER** [[planet|planets]] and **NUMBER** [[moon|moons]]:
