

Technical Data Sheet

MG-4AM MY GUARD LEATHER AND VINYL

MG-4AM is a unique clear coating containing an EPA-approved antimicrobial disinfectant formulation that helps to lower the bioburden to continuously protect the coating from the colonization of bacteria that causes mold, mildew, and fungus. The product is formulated to protect the coating from being degraded and deteriorated by colonization of microbes, prolonging the life of the coating, thus allowing the coating to remain molecularly bonded with and protect the substrate.
