VIDEO RECORDING: <https://u.rackn.io/mtup18>

Welcome to the eighteenth (v018) Digital Rebar online meetup! In today's meetup we'll have a discussion and demo on Secure Params, demo of the new Web UX Tenants (RBAC) pieces, and bug scrub the issues/features backlog. We'll conclude with our usual Community feedback and discussions.

We will cover the following topics:

- intro (0:00 to 0:05): Welcome back and today's agenda !!
 - Online with us from the RackN team:
 - Shane, Greg, Rob, Victor, Stephen
 - Community
 - Florent
 - Romain Lafontaine
 - cat
 - CJ Beck
 - jhuylebroeck
 - dhancock
 - recap of seventeenth (v017) Digital Rebar meetup
 - meetup link: <https://www.meetup.com/digitalrebar/events/lchdhpyxhblb/>
 - video replay: <https://u.rackn.io/mtup17>
 - agenda: <https://docs.google.com/document/d/1iaB27QPAgXPzNTdIXuFt5uF6ROyEHLdLETRP3LZooDM>
 - format is online, to allow broader participation
 - Currently hosted via zoom.us meetings

- In the future we may move to physical meetups (SF Bay/Silicon Valley and Austin TX) - let us know if you'd like that
- general format will be discussion and steering of Provision features/releases
- we'll always try and produce some content for community as part of each meetup
 - example deployments/architecture
 - Documentation
 - Demo of features and capabilities
- discussion and demo on Secure Params
- demo on UX of Tenant (RBAC) components
- features/enhancement bug scrub
- Community Questions and Answers
- wrap-up (0:55 to 1:00): getting in touch with the Digital Rebar community and RackN
