2. **Funding and Resource Allocation:**
    - The foundation will be funded primarily through a 5% supply of the Phoenix token set aside specifically for charity purposes, donations from Phoenix Token holders, as well as contributions from corporate partners, philanthropic organizations, and individual donors.
    - Transparent reporting and accountability measures will be in place to ensure that all funds are used effectively and for their intended purposes.
3. **Sustainability Focus:**
    - Our projects will be designed with sustainability in mind, ensuring that they continue to benefit communities long after our initial involvement. This includes investing in renewable energy, promoting local ownership of projects, and providing ongoing training and support to ensure the longevity of our initiatives.
