

Dear IRCF Bioinformatics Members,

My name is Droit Hazut, and I am a scientific advisor at the IRCF initiative.

As part of IRCF efforts to improve Elixir utilization, we would like to inform you about an upcoming webinar titled "**Demystifying ELIXIR: Everything You Ever Wanted to Know and More.**"

This interactive event will help participants understand ELIXIR's structure and operations. It is particularly suitable for those who have been part of ELIXIR for less than two years, but it is open to all. Those involved in onboarding new people to Nodes might also find this webinar useful.

By the end of the session, attendees should have a clearer picture of how they fit into ELIXIR and how best to apply their knowledge and skills to maximize their impact. They should leave with answers to their questions, understand where to find further information, and know how to actively engage with ELIXIR.

When: 11 July 2024 @ 16:00

Speakers:

- Elaine Harrison (Communications Manager, ELIXIR Hub)
- Irena Maus (Deputy Head of Node, Node Coordinator ELIXIR-DE)

Registration: Please register to the Zoom meeting using this [link](#), and add it to your calendar by using the link in the confirmation email sent to your mailbox.

We highly recommend attending this insightful and informative event. **Note:** If you register for the webinar, please inform me so we can gauge the number of participants from Israel.

For further recommended events, please use this [link](#)

For any inquiries or issues, please do not hesitate to contact me.

If you do not wish to receive emails on this topic, please inform me.

Best regards,
Dorit
