

Mystiko.Network (XZK) Brief

English: **Briefing Doc for Mystiko.Network (XZK) on Bitget**

Mystiko.Network (XZK) is an innovative base layer for Web3 that leverages Zero-Knowledge (ZK) technology to enhance the scalability, interoperability, and security of blockchain networks. By providing a universal ZK SDK, Mystiko empowers developers to build blockchain applications that are cost-efficient, scalable, and secure, all while protecting users' on-chain identities and transaction histories.

Mystiko.Network (XZK) is now listed in the Innovation, Web3, and ZK Zone of Bitget!

Mystiko.Network (XZK)'s Highlights

- **Zero-Knowledge Technology:** Utilizes advanced ZK-SNARK technology for secure and private blockchain transactions.
- **Cross-Chain Compatibility:** Compatible with major Layer 1 (L1) and Layer 2 (L2) blockchains, enhancing interoperability.
- **Mainnet and Testnet Availability:** Live on the Ethereum mainnet with CAMO Wallet and supports several testnets for development and experimentation.
- **Strong VC Backing:** Supported by notable investors like Sequoia, Samsung NEXT, CoinList, HashKey Capital, and prominent individuals like Sandeep Nailwal and Gokul Rajaram.
- **Affordable and Accessible:** Reduces transaction costs by up to 90%, making ZK technology affordable for all users.
- **Commitment to Compliance:** Ensures user privacy while maintaining a decentralized auditing system to prevent illegal activities.

What is Mystiko.Network (XZK)?

Mystiko.Network (XZK) is an innovative base layer for Web3 that leverages Zero-Knowledge (ZK) technology to enhance the scalability, interoperability, and security of blockchain networks. By providing a universal ZK SDK, Mystiko empowers developers to build blockchain applications that are cost-efficient, scalable, and secure, all while protecting users' on-chain identities and transaction histories.

How Mystiko.Network (XZK) Works?

Mystiko.Network offers a range of features designed to address the key challenges in the blockchain space. Here are some of the main features:

- **Zero-Knowledge Proof Technology:** Mystiko uses advanced ZK technology to create a secure and private environment for blockchain transactions. This technology ensures that users' financial data, including account balances and transaction histories, remain confidential.
- **Cross-Chain Connectivity:** Mystiko's ZK-SNARK protocol can be implemented on almost all major Layer 1 and Layer 2 blockchains, such as Ethereum, BSC, Solana, Polkadot, Avalanche, and more. This cross-chain compatibility makes Mystiko the base layer of Web3, enabling seamless interoperability across different blockchain networks.
- **Lower Transaction Fees:** By utilizing ZK-based scaling technology, Mystiko significantly reduces transaction fees. This makes blockchain transactions more affordable for users.
- **Complete User Control:** Mystiko is a non-custodial protocol, meaning users retain full control over their cryptocurrencies throughout the entire process. Users' assets are never held or managed by Mystiko.Network.
- **One-Click User Experience:** Mystiko offers a user-friendly interface that allows for single-click cross-chain ZK transactions. This simplifies the process of transferring assets between different blockchains.
- **Aggregated Major Bridges:** Mystiko integrates with popular cross-chain bridges, enabling users to choose their preferred bridge services with just one click.
- **Secure ZK Environment:** Mystiko provides an ultra-secure environment for users' financial data. Even in the unlikely event of a hack, the design of Mystiko's protocol ensures that users' assets remain protected.
- **Compliance and Security:** Mystiko.Network is committed to protecting user activity for legitimate purposes and does not support illegal activities, such as money laundering. The network has designed a decentralized auditing system to ensure that suspicious deposits are scrutinized while regular users' data remains protected.

Who founded Mystiko.Network (XZK)?

Mystiko.Network was created by a group of anonymous engineers who formed a DAO to drive the project's development. Despite the anonymity of its creators, the project has gained significant attention and support from the blockchain community and prominent venture capitalists.

What are the VCs behind Mystiko.Network (XZK)?

Mystiko.Network has received backing from several notable venture capital firms and individual investors. Some of its selected backers include Sequoia, Samsung NEXT, CoinList, HashKey Capital, Gnosis Safe, Signum Capital, and notable figures like Sandeep Nailwal and Gokul Rajaram. This strong financial support underscores the confidence that investors have in Mystiko's potential to revolutionize the Web3 landscape.

Mystiko.Network (XZK) on Bitget

Deposit Available: Opened

Trading Available: 18 June 2024, 10:00 (UTC)

Withdrawal Available: 19 June 2024, 11:00 (UTC)

Sample posts

The native token of Mystiko.Network, XZK, is now available for trading on Bitget. XZK is essential for running the network, as they enable ZK-Rollup miners and relayers to process transactions efficiently and securely. Holders of XZK can also participate in governance of the platform.

Trading XZK on Bitget offers a unique opportunity to contribute to the network's functionality and development.

在本文档中，您可以找到关于此次上市的更多资料。

公告 & 推文

- [【首发上市】Mystiko Network\(XZK\)将上线 Bitget 创新、Web3 和 ZK 区！](#)
- [在Bitget官方Twitter上发推文](#)
- [Mystiko.Network \(XZK\): ZK Technology 引领 Web3 隐私与安全](#)

Mystiko.Network (XZK) 的亮点

- **零知识技术:** 利用先进的 ZK-SNARK 技术实现安全且私密的区块链交易。
- **跨链兼容性:** 兼容主要的第 1 层 (L1) 和第 2 层 (L2) 区块链, 增强了互操作性。
- **主网和测试网可用性:** 使用 CAMO 钱包在以太坊主网上线, 并支持多个用于开发和实验的测试网。
- **强大的风险投资支持:** 由 Sequoia、Samsung NEXT、CoinList、HashKey Capital 等知名投资者以及 Sandeep Nailwal 和 Gokul Rajaram 等知名人士提供支持。
- **价格实惠且易于使用:** 将交易成本降低高达 90%, 使所有用户都能负担得起 ZK 技术。

- 合规承诺: 确保用户隐私, 同时维护分散的审计系统以防止非法活动。

Mystiko.Network (XZK) 是什么?

Mystiko.Network (XZK) 是 Web3 的创新基础层, 它利用零知识 (ZK) 技术来增强区块链网络的可扩展性、互操作性和安全性。通过提供通用的 ZK SDK, Mystiko 使开发人员能够构建具有成本效益、可扩展性和安全性的区块链应用程序, 同时保护用户的链上身份和交易历史记录。

Mystiko.Network (XZK) 如何运作?

Mystiko.Network 提供一系列功能, 旨在解决区块链领域的关键挑战, 例如:

- 零知识证明技术: Mystiko 使用先进的 ZK 技术为区块链交易创建安全且私密的环境。该技术可确保用户的财务数据 (包括账户余额和交易历史记录) 保持机密。
- 跨链连接: Mystiko 的 ZK-SNARK 协议可以在几乎所有主要的第 1 层和第 2 层区块链上实现, 例如以太坊、BSC、Solana、Polkadot、Avalanche 等。这种跨链兼容性使 Mystiko 成为 Web3 的基础层, 可实现不同区块链网络之间的无缝互操作性。
- 降低交易费用: 通过利用基于 ZK 的扩展技术, Mystiko 显著降低了交易费用。这使区块链交易对用户来说更实惠。
- 完全的用户控制: Mystiko 是一种非托管协议, 这意味着用户在整个过程中对其加密货币拥有完全控制权。Mystiko.Network 永远不会持有或管理用户的资产。
- 一键式用户体验: Mystiko 提供用户友好的界面, 允许单击跨链 ZK 交易。这简化了在不同区块链之间转移资产的过程。
- 聚合主要桥接: Mystiko 与流行的跨链桥接集成, 使用户只需单击一下即可选择他们喜欢的桥接服务。
- 安全的 ZK 环境: Mystiko 为用户的财务数据提供超安全的环境。即使在发生黑客攻击的罕见情况下, Mystiko 协议的设计也能确保用户的资产得到保护。
- 合规性和安全性: Mystiko.Network 致力于保护用户活动的合法目的, 不支持洗钱等非法活动。该网络设计了一个去中心化的审计系统, 以确保可疑存款受到审查, 同时保护普通用户的数据。

谁创立了 Mystiko.Network (XZK)?

Mystiko.Network 由一群匿名工程师创建, 他们组建了一个 DAO 来推动项目的发展。尽管其创建者是匿名的, 但该项目已获得区块链社区和知名风险投资家的极大关注和支持。

哪些风险投资支持 Mystiko.Network (XZK)?

Mystiko.Network 已获得多家知名风险投资公司和个人投资者的支持。其部分支持者包括 Sequoia、Samsung NEXT、CoinList、HashKey Capital、Gnosis Safe、Signum Capital, 以及

Sandeep Nailwal 和 Gokul Rajaram 等知名人士。这种强大的资金支持凸显了投资者对 Mystiko 彻底改变 Web3 格局的潜力的信心。

Mystiko.Network (XZK) 在 Bitget 的上线安排

充值开放时间: 已开放

交易开放时间: 2024年6月18日 18:00 (UTC+8)

提现开放时间: 2024年6月19日 19:00 (UTC+8)

现货交易链接: [XZK/USDT](#)

发帖参考

Mystiko.Network 的原生代币 XZK 现已在 Bitget 上交易。XZK 对于网络运行至关重要, 因为它们使 ZK-Rollup 矿工和中继器能够高效安全地处理交易。XZK 持有者还可以参与平台治理。

在 Bitget 上交易 XZK 为网络的功能和发展做出了贡献, 提供了独特的机会。
